SCHOOL EMBLEM

The Book : Refers to knowledge and truthfulness
Lighted Candle : Giving light to world, dispelling darkness
Lilly Flowers : Symbolizes Purity
Globe : Serve The World
Hence the Motto : Growing in truth and purity

VISION

To impart value-based education that will liberate, humanize and transform every student into persons of Character, Competence, Conscience, Commitment and Compassion.

MISSION

Our endeavour is to establish a student-friendly School with active and creative minds, where every student feels loved, welcomed, respected, affirmed and valued; a sense of understanding and compassion for others. To develop our school which gives more importance to character formation than to competence; where the staff work as a team with fervour and enthusiasm; where discipline is achieved with respect and love. We stress the total development of each child: spiritual, moral, intellectual, social, emotional, and physical.

FROM EDITOR'S DESK

Change does not change tradition. It strengthens it. Change is a challenge and opportunity, not a threat".

The great visionary Late V. Rev. Fr Aloysius Rosario by his farsightedness had dream to establish an English Medium School in the lowly hamlet of Shirva. 10th of January in the year 1983, was a significant day in the annals of the school when the first batch with a bunch of 43 students was introduced. On the 1st of June 1985, the Government's green signal was given to start the First Standard and in 1986 it was enrolled under the large prestigious banner of the Catholic Board of Education. Mangalore. Many a hurdles and stumbling rocks were met, but the strong hand of Providence strengthened her to march forward. With head held high and the strength increasing the first batch of Class 7th passed out with flying colours in April 1992 and Std 10th in 1994-95.

When people need things to be better than they are, they are looking for change. When they are serious about that change they are ready to act. Changes allow them to do something better and that is answering the need of the present scenario of education system to switch over to CBSE syllabus. To achieve this a pillar of determination who takes stumbling blocks as stepping stones and climbs on them to success is the Correspondent V. Rev. Fr Stany Tauro. He took the challenge and got the much needed support from the vibrant, young adventurous Principal. Rev Fr Mahesh D'Souza. The managing committee members are a band of co-helper in this herculean task. The affiliation team inspectors were highly impressed at the systematic and to the mark of CBSE syllabus requirements. To believe one has to see, the school website enables all to view the various programmes and activities of the school.

The Annual Magazine is a channel, where the students get an opportunity to exhibit their creativity and talents. The magazine also highlights the various activities of the school.

A team is not group of people who work together. A team is a group of people who trust each other. I'm indebted to the Principal Rev. Fr Mahesh D'Souza, Editorial Committee, Management Staff, Students, Alumni for their support and guidance at all times.

Its a happy moment to place the school magazine in your hands and cherish the memories.

CESU SECRETARY'S MESSAGE

Dear Fr Mahesh,

Thank you for your letter dated 9-4-2018 requesting me to send my message to be published in the School magazine which will be released shortly.

At the outset I wish to congratulate you on all that you have achieved during the short span of two years at Shirva. The Institution has grown from strength to strength and the credit for this achievement should go to you. The temple of learning founded by the great visionary, Fr Aloysius Rosario over three decades ago stands tall today, thanks to the unstinted and dedicated work of the Correspondents and Headmasters who followed Fr Rosario. Today the Don Bosco English Medium School has become "owner's pride and neighbor's envy"; it has turned out to be a blessing to the people of Shirva and the neighboring villages. If all goes well, we will have a good CBSE school at Shirva soon. We thank God for His blessings and Mother Mary for her maternal care over the Institution, the staff and the students of Don Bosco School.

I am delighted to learn that the School Magazine will be released by the end of this month. I congratulate you and all those who work with you to publish this magazine. The School magazine offers a wonderful opportunity to the young writers to give expression to their creative potential. I am sure it will carry articles, anecdotes, short stories, and poems that will instruct, entertain and inspire readers. Please convey my congratulations and good wishes to all those who have collaborated with you to bring out this School Magazine. May all those who have worked for the school magazine experience a tremendous sense of fulfillment.

May the Risen Lord bless you and your efforts to achieve excellence in and for Don Bosco English Medium School at Shirva.

Rev. Dr Lawrence D'Souza
Secretary - CESU

CORRESPONDENT'S MESSAGE

Having completed 35 years of fruitful years by imparting quality and value based education, Don Bosco English Medium School now enters into a new phase of life under CBSE board. The founding fathers both of Don Bosco Higher Primary & High School late V. Rev. Frs. Aloysius Rosario & Sylverster D'Souza did a great service to the people of Shirva and surrounding villages by opening Don Bosco English Medium schools in Shirva for people at affordable fees.

Upgrade & up date is the dictum of the day. Progress or perish, survival of the fittest are commonly used terms of present day, all the more applicable to educational institutions. I am happy to say that Don Bosco English Medium School stood the test of time and has displayed its metal.

Was there a need of going in for a CBSE school in Shirva? Quite a many educated people not only from Shirva, but also Shirvites, residing elsewhere, expressed their happiness over this move of upgradation. They say that it is time to think globaly, prepare our younger generation to face a challenging future. There is no doubt that Don Bosco English Medium School will lay a solid foundation for the growth of our children to fly high.

I wish to express my deep sense of appreciation to Rev. Fr. Mahesh D'Souza the Principal of Don Bosco English Medium School who raised the school to meet the standards of CBSE board. We the church community of Shirva are happy to see one of the projects of our Church Centenary Programme come true with the blessings of Our Lady of Health and the support of our superiors and the parishioners of Shirva. May St Don Bosco bless us all.

V. Rev Fr Stany Tauro
Correspondent

PRINCIPAL'S MESSAGE

Dear Reader,

It's my pleasure and priviledge to serve as the Principal of Don Bosco English Medium School not only it's my passion and mission its also because I enjoy the company of my dearly loved students, talented and zealous teachers, hghly cooperative parents and well supporters management who keep me energized all the time.

Don Bosco English Medium School is not just one more school in the already long list of educational institution in the locality but it is a school which has made a great difference in its qualitative journey over three decades. Our children represent our hopes and dreams. As a parent, you certainly want the best for your child and we are indeed happy to be working with you to ensure that they are given the right knowledge to face future challenges. The Management, Parents, Students and the teachers fraternity are a team and complement each others efforts. Education is not just a process of giving knowledge for a high profited job but a life long process which creates an understanding of moral and ethical values to guide and make our students morally upright citizens of the country.

We try to create an atmosphere of reverence for education and healthy environment where academics, sports and co-curricular facilities mould our students and motivate them to be the brightest and the best. In order to do this, the school works towards inculcating certain values in the students in order to enrich their mind and spirit and also to develop essential moral attributes like truthfulness, courtesy, generosity compassion, justice, love and trust worthiness in them. The students are taught to study in an atmosphere of love and unity where each student sees himself as a member of one global family.

"If a plant is carefully nurtured by a gardener, it will become good, and produce better fruit. Therefore, children must be given a good training from their earliest childhood".

This is what we at Don Bosco English Medium School are striving to do, Our role is identical to that a gardener and we strive to perform this role to the best of our ability by nurturing these 'seeds' at school so that they bear the "Best Fruits" in the years to come. I am very grateful to each and every member of the Don Bosco English Medium School fraternity Our staff who know very well how to synchronize and harmonize with our process of growth. Our Students who constantly show by their performance and conduct that it makes a difference to be a student of Don Bosco English Medium School and our Parents whose trust inspires us to move ahead. I take this opportunity to thank the editorial team of annual souvenir. Mrs Cecilia Lewis, being the steward of this team has done a marvelous job waiting at the end of academic year. The book is rich with its contents from the valuable contributions of our teachers, alumni and students. A big thanks to all and may God Bless You.

We wish you and your child a very rewarding experience at Don Bosco

Rev. Fr Mahesh D'Souza
Principal

DON BOSCO ENGLISH MEDIUM SCHOOL, SHIRVA
KINDERGARTEN SECTION
SCHOOL ANNUAL REPORT 2017-18

A warm and hearty welcome to you our esteemed guests, Respected Very Rev. Fr Stany Tauro, Correspondent of Don Bosco and St. Mary's Educational Institutions Shirva, and the President of this function, Honourable Chief Guest of the day Dr P V Bhandary, Psychiatrist & Director, Dr A.V. Baliga Group of Institution, Udupi, Guest of Honour, Mr Halamoorthy, Circle Police Inspector, Kaup, Asst Parish Priest Fr Canute Noronha, Mr Wilson D'SouzaVice President of Parish Pastoral Council, Shirva, Mrs Leena Machado secretary of Parish Pastora Council Shirva, Mr Melwyn Aranha Coordinator of Commissions, Our Lady of Health Church Shirva, Members of Management Committee, Mr Julian Rodrigues, Mr Melwyn D'Souza, Mrs Diana Saldanha, Mrs Irine Rodrigues, Parents of Students, Teachers, Alumni Members, Benefactors, Well Wishers of our institution, ladies and gentlemen.

I deem it as a proud privilege to present before you a report of activities of the Don Bosco English Medium Kindergarten Annual Day Celebrations.

Don Bosco Kindergarten is a happy place in a stress free setting created for the physical, emotional, intellectual, creative and social development of children in the age group of three and a half to five years.

Management:

Don Bosco English Medium School established in the year 1983 was previously under the Management of Catholic Board of Education, Mangalore. But now with the recent developments it comes under the Management of the Catholic Education Society of Udupi. Most Rev. Dr Gerald Isaac Lobo Bishop of Udupi is the President of Management, Msgr Dr Baptist Meneges, Vicar General of the Diocese is the Vice President of the Management, and Rev. Dr Lawrence Dsouza is the secretary of the Management, Very Rev. Fr Stany Tauro is the Joint Secretary and the Correspondent of the School, Rev. Fr Mahesh Dsouza is the Principal of the School, members Mr Wilson Dsouza, Mr Melwyn Aranha, Mr Julian Rodrigues, Mr Melwyn Dsouza, Mrs Diana Saldanha, Mrs Irene Rodrigues is the Secretary of School Management Committee.

CBSE Syllabus:

The School by its existence has got 34 years of history. It has served for more than thousands of students in and around the society of Shirva. As a part of development and growth, from the year 2016, the farsighted Management has taken

a bold step to switch over the school into a CBSE syllabus School. This is a milestone in the life of Don Bosco English Medium School. Presently till class 7 CBSE Syllabus is introduced to the students. The management is toiling day and night to have a full fledged Central Syllabus School within a year. An extension building for the CBSE School for which foundation stone was laid by Most Rev. Dr Gerald Isaac Lobo Bishop of Udupi, on 7th September 2016 is in its completion level. We remain thankful to our Management team with all the present day challenges and hurdles for providing a beautiful opportunity for the growth of academicals spheres at our Campus. We request generous hearted people to extend their co-operation for this noble cause. The Karnataka Education Board has given No Objection Certificate to commence Central Syllabus School at Shirva. Also all required documents for the Central Syllabus are submitted to the New Delhi Office.

Renovation of Kindergarten Section:

Kindergartens play an important role in children's total development. They require a place with good facilities for their whole some growth. Keeping in mind these views and the modernity the management has renovated the Kindergarten section and turned it in to a beautiful ambience with modern day facilities for the cordial and joyful growth of children. A separate play area and library of tiny tots will be established very soon. We thank our Correspondent for showing whole hearted generosity to present a lovely place for the integral growth of these tiny tots.

Staff and the students:

There are 48 staff members in the School and in the Kindergarten section we have four sections. Students are taken care by four teachers Mrs Emelia Sanctos, Mrs Shalet Dsouza, Mrs Shyona Dalmeida, Mrs Leena Lobo and two non teaching staff members Mrs Saritha Noronha and Mrs Yashoda who guide and help them to acquire all basic skills required for Kindergarteners. We place on record, their dedicated service charism in this institution. At this juncture I thank all the teachers and helpers for their sincere efforts.

Smart Classes:

The use of smart classes and modern technology eases the learning process for all students. Smart classes use all interactive modules like videos and presentations and these visually attractive methods of teaching become appealing to students. The learning becomes very influential. Smart Classes are installed at all 24 classrooms. Teachers make use of it more effectively. Direct internet data connection facility is also provided to the Smart Classes, so that teachers can browse relevant study contents and present it to students. We thank Mrs Shwetha Shetty Smart Class Instructor.

School Transport facility:

It was a long pending dream of the School which has come to the reality this year. Most of the Parents were expressing their desire to send their children to the School in a safe and secure mode of transport. It was a great venture for the Management to plan to organise and to execute. Along with ongoing construction work to invest to the School Bus facility was a difficult task to the Management. But the overwhelmed support from the Bishop, Rt Rev Dr Gerald Isaac Lobo,

CESU Secretary Rev. Dr Lawrence Dsouza, Parishioners, Parents and well-wishers has made this project to run in a smooth way. We are grateful to the Finance Committee of Shirva Parish, Management Committee of the School. Big thanks to the Syndicate Bank who hypothesised these buses. We thank all parents for the cooperation which is shown to bring in force this system. Inaugural function of these buses took place on 7th of June. Rev. Dr Lawrence Dsouza, Secreatry, CESU Udupi performed Prayer Service and Blessed the buses, Mr Sathish Kamath, General Manager Syndicate Bank Regional Office inaugurated the buses by cutting ribbon, Mr S.S. Hegde DGM Syndicate Bank, Mr Ashok Kamath Branch Manager Syndicate Bank Shirva were present during the occasion.

Counselling:

The counselling facility will provide a comprehensive development and lays a positive impact on students. It prepares the students to face challenges, builds self confidence, fills in integrity and infuses humanness to live a happy life. We have Miss Renu Veronica Clinical Psychologist who is our own alumni, performs this sacred job exceptionally well. Many students and parents are benefitted from this facility.

Drawing:

The Drawing class in the School enhances the psycho motor skills, concentration and creativity in students. The positive effects of it are already seen. Children with more enthusiasm participate in this class. We thank Mr Shivaraj our Drawing teacher for the hard work and dedication.

Academic Performance:

* Our academic year began on 1st of June with the arrival of L.K.G. and U.K.G. children. A warm welcome goes a long way in starting the year well. The tiny tots were welcomed with lot of warmth and cheer.
* Weekly assemblies and school prayers.
* Assessments are conducted in the month of July and September.
* Literacy begins by immersing children in literacy with rich environments. Our children are exposed to English language at all the time.
* Stories, songs and rhymes are used by the teachers to help children, to appreciate the rhythm of new language.
* We introduce planned activities that involve children in discriminating sounds, identifying print, recognizing letters and writing.
* We aim to infuse in children the joy of reading and love of books right from their young age.
* By using a variety of teaching aids, several mathematical concepts like big, small, few, tall, short etc. are introduced before teaching numbers and counting.
* Children are taught Art, General knowledge and various dances.
* Children enjoy watching many educational and other interesting programmes through Smart Classes.

Co-Curricular activities

* Celebration of feast of Vanamahotsava on 8th July. Cultural programme was performed by the Tiny Tots.
* Celebration of Ramzan festival was organized on 26th June. All children enjoyed the lovely greetings of Ramzan Festival.
* Independence Day celebration - Students participated in a variety of cultural programmes portraying the country's heritage.
* Grand Parents day was celebrated on 11th September. Mr Norbert Machado was the Chief Guest. Lucky games for the grand parents were held and distributed the prizes by the President Very Rev. Fr Stany Tauro the Correspondent of our school. This celebration was appreciated and enjoyed by all Grand Parents of our students.
* Children participated in various competitions such as drawing, recitation, singing, storytelling, etc.
* We give adequate importance to the physical development of our children. Our teachers take care of these needs.
* Full day classes are arranged for the Kindergarten children from the month of October. A separate activity period is arranged to get children involved in solving Zig Zag puzzles, stringing beads, learning skills of everyday life like buttoning, shoe lacing etc.
* Deepavali Celebration is organized on 2nd of November. Tiny tots enjoyed the celebration with various lights of colour.
* A Sports meet for KG Section Children will be arranged in the month of January

Child Safety Measures:

* Principal Fr Mahesh D'Souza attended various departmental meetings periodically in this regard.
* Conducted a Seminar on 'Adolescent Problems' for the students.
* Distributed guidelines to the parents about child safety measures.
* Organized school vehicle drivers and conductors meetings and given awareness on Child safety topic.
* Installed 72 Closed circuit cameras in the school premises to have the surveillance of activities.
* Enlightened the parents in the meeting to safe guard their children.
* All teachers attended the input session on POCSO law.
* Special instructions are given to the staff members about sexual harassments and corporal punishments.
* Child safety software is installed and the status of the child is made known to the parents through the E-communication.

Participation of parents:

* Class wise Parent Teachers interface programme was conducted from 27th of June to 5th of July. There was a very good interaction from parents. Importance for each class is given and all Management

members were present for all meetings.

* Open Day was organized on 24th, 25th and 26th of October. It was a day to know the performance of the child to the parents and also to have an interface with parents and teachers. The open day sessions were well appreciated by the parents. The next open day session will be organized in the first week of April.

School Website:

The School website portal is www.donbosco schoolshirva.com This website helps us to reach our parents, alumni members and well wishers. All events of School are updated on this website.

Alumni Meet:

Thousands of students those who studied and walked out of the portals of Don Bosco School are shining all over the world. It was our dream to bring together all our students to their alma mater. Alumni meet was organised on 15th of April for about 150 students of Don Bosco School came together to relish and refresh their memories. The next alumni meet will be conducted in the month of December.

Faculty Development Programme:

* Organised four days 24th May to 27th May faculty empowerment programme to all the faculty members. Dr Ganesh Bhat from Bangalore, Mrs Roopa Shinivasan from Bangalore and Mrs Manjuladevi from Bangalore were the resource persons. This training session was a boost to continue with the CBSE syllabus school. The main topics were – Characteristics of an effective teacher, Classroom Management of Effective teaching, Effective English Communication, CBSE overview, and the assessment system. These various aspects and techniques of teaching made a good way to start the new academic year, and the result was seen in the performance of the school.

* The Principal Fr Mahesh D'Souza attended various meetings, trainings regarding administration of School curriculum activities.

* Conducted training on Digital learning on 9th of September. Mr MS Srinivas from Destination Success Digital Pvt LTD was the resource person.

* Organized half year academic evaluation session for teachers on 31st of October. Mrs Manjuladevi Principal of Police Public School Bangalore was the resource person.

Big thanks to our Benefactors:

As we all know the upgrading of the School has got lot of investments. This task wouldn't have been possible without the generous donations of our Benefactors and donors. We thank all our Parishioners, Alumni members, Friends and relatives for showing their good will in a large scale. May God bless all our Donors.

Benefit Show:

As we all know that our School is under the process of upgrading itself to the CBSE Syllabus, a huge infrastructure is blooming up for the academicals needs of the Students. This herculean task has become very difficult for the management to complete. Hence the Management

has decided to play a benefit show in order to raise some funds for this infrastructure. There will be a Tulu entertaining drama 'Eduru Kopa' on Sunday 10th of December at 6:30pm at the Don Bosco School Grounds. It is our kind request to all of you to give hand in hand for this cause. **You may kindly support us by being special sponsors, benefactors and by taking tickets of the show.**

A deep debt of gratitude:

* An institute can function only with the willing hand and active co-operation of all its stake holders.
* We are ever thankful to Most Rev. Dr Gerald Isaac Lobo the Bishop of Udupi and the Director of Catholic Education Society, Udupi
* Rev Fr Lawrence D'Souza the Secretary of Catholic Education Society Udupi and the President of today's programme for their constant guidance and support.
* We wish to express our gratitude to our dear Correspondent Very Rev. Fr Stany Tauro for his support and all that he has been to the School.
* It is our good fortune to have Dr PV Bhandary amongst us as the Chief Guest of 34th annual day celebration of the school. We eagerly look forward for his words of wisdom.
* We thank today's guest of honour Mr Halamoorthi.
* We are thankful to Mr Wilson D'Souza, Vice President of Parish Pastoral Council for his ceaseless efforts in leading the school towards the development.
* We remain ever grateful to the School Managing committee for their guidance which is a strong pillar to the school.
* Our sincere thanks to the Heads and Staff of Don Bosco & St Mary's sister institutions, which is a powerful witness of love and unity.
* Our staff members both teaching and non teaching deserve a word of appreciation and thanks for their efforts and whole hearted co-operation in moulding the future generation.
* We remain grateful to Fathers of Don Bosco Youth Centre and Sisters of Nativity and Auxilum Convents for their selfless service for the betterment of the school.
* We thank all our junior artists of our Kindergarten School, in a while from now they are going to perform on this stage.
* To you dear parents we thank you for your presence here this evening which indicates appreciation of what the school does for your children.
* An art exhibition is arranged of the things prepared by the students of our School. Kindly give a visit.

May the providence of Almighty God who has guided us in the past continue to shower his blessings on us now and in the years to come. May Our Lady of Health the Patroness of our school bless us all.

◆

DON BOSCO ENGLISH MEDIUM SCHOOL, SHIRVA
ANNUAL REPORT 2017-18

Respected Rev. Fr Lawrence D'Souza, Secretary, Catholic Education Society, of Udupi and the President of this function, Very Rev. Fr Stany Tauro, Correspondent of Don Bosco and St. Mary's Educational Institutions Shirva, Honourable Chief Guest of the day Miss Myrtle L.F. Lewis, Principal, St Mary's CBSE Shool, Udupi, Guest of Honour, Mrs Varija Poojary, President, Grama Panchayath, Shirva, Asst Parish Priest Fr Canute Noronha, Mr Wilson D'SouzaVice President of Parish Pastoral Council, Shirva, Mrs Leena Machado secretary of Parish Pastora Council Shirva, Mr Melwyn Aranha Coordinator of Commissions, Our Lady of Health Church Shirva, Members of Management Committee, Mr Julian Rodrigues, Mr Melwyn D'Souza, Mrs Diana Saldanha, Mrs Irine Rodrigues, Parents of Students, Teachers, Alumni Members, Benefactors, Well Wishers of our institution, ladies and gentlemen.

It is with great joy that I extend a warm and cordial welcome to you and would like to present a glance of the life and activities of Don Bosco English Medium School.

Management:

Don Bosco English Medium School established in the year 1983 was previously under the Management of Catholic Board of Education, Mangalore. But now with the recent developments it comes under the Management of the Catholic Education Society of Udupi. Most Rev. Dr Gerald Isaac Lobo Bishop of Udupi is the President of Management, Msgr Dr Baptist Meneges, Vicar General of the Diocese is the Vice president of the Management, and Rev. Dr Lawrence Dsouza is the secretary of the Management, Very Rev. Fr Stany Tauro is the Joint secretary and the Correspondent of the School, Rev. Fr Mahesh Dsouza is the Principal of the School, members Mr Wilson Dsouza, Mr Melwyn Aranha, Mr Julian Rodrigues, Mr Melwyn Dsouza, Mrs Diana Saldanha, Mrs Irene Rodrigues is the secretary of School Management Committee.

CBSE Syllabus:

The School by its existence has got 33 years of history. It has served for more than thousands of students in and around the society of Shirva. As a part of development and growth, from the year 2016, the farsighted Management has taken a bold step to switch over the school into a CBSE syllabus School. This is a milestone in the life of Don Bosco English Medium School. Presently till Class 7 CBSE Syllabus is introduced to the students. The management is toiling day and night to have a full fledged Central Syllabus School within a year. An extension building for the CBSE School for which foundation stone was laid by Most Rev. Dr Gerald Isaac Lobo Bishop of Udupi, on 7th September 2016 is in its completion level. We remain thankful to our Management team

with all the present day challenges and hurdles for providing a beautiful opportunity for the growth of academicals spheres at our Campus. We request generous hearted people to extend their co-operation for this noble cause. The Karnataka Education Board has given No Objection Certificate to commence Central Syllabus School at Shirva. Also all required documents for the Central Syllabus are submitted to the New Delhi Office.

Staff and Students:

There are 24 sections with 800 students from Class LKG to Class 10. In the Primary Section from Class 1 to 7 there are 497 students. There are 48 teaching and non teaching staff members who work continuously for the wholesome growth of students, enhancement of the educational quality and also for the up gradation of the School. This year as the class sections are increased we have welcomed sixteen new teaching staff members to the Kindergarten, Primary and High School Sections. They are

Mrs Jeniffer Fernandes,
Mrs Reshma Pinto,
Mrs Divyashree,
Ms Rashmi H.K.,
Ms Josephine Dias,
Mrs Reshma Dsouza,
Mrs Ivin Lorine Dsouza,
Mr Umesh,
Ms Priya Noronha,
Mr Yashwanth,
Ms Renu Veronica Dsouza,
Ms Vanitha K.
Mr Shivaraj,
Mrs Shwetha Shetty,
Mr Anil Nazreth,
Mrs Preethi Reena Dalmeida,
Mrs Yashoda

We extend a warm welcome to these teaching and non teaching staff. It gives me immense pleasure to convey you all, that we have 48 dedicated and committed staff to cater to the academic needs of our children in the School.

The New Beginning:

As a part of upgrade and update, the School has commenced various new beginnings to the School.

Library:

A library is a house of knowledge in the School. It plays a very important role in promoting the progress of knowledge. The new, spacious library which exists at the basement floor of the School is stimulating reading skills in students. They go to the library very often and make ample use of this facility. Miss Vanitha is the librarian of the School. We are thankful to all Students, Parents, Parishioners, Alumni members for donating various books to the School library.

Smart Classes:

The use of smart classes and modern technology eases the learning process for all students. Smart classes use all interactive modules like videos and presentations and these visually attractive methods of teaching become appealing to students. The learning becomes very influential. Smart Classes are installed at all 24 classrooms. Teachers make use of it more effectively. Direct internet data connection facility is also provided to the Smart Classes, so that teachers can browse relevant study contents and present it to students. We thank Mrs Shwetha Shetty Smart Class Instructor.

School Transport facility:

It was a long pending dream of the School which has come to the reality this year. Most of

the Parents were expressing their desire to send their children to the School in a safe and secure mode of transport. It was a great venture for the Management to plan to organise and to execute. Along with ongoing construction work to invest to the School Bus facility was a difficult task to the Management. But the overwhelmed support from the Bishop, Rt Rev Dr Gerald Isaac Lobo, Cesu Secretary Rev. Dr Lawrence Dsouza, Parishioners, Parents and well-wishers has made this project to run in a smooth way. We are grateful to the Finance Committee of Shirva Parish, Management Committee of the School. Big thanks to the Syndicate Bank who hypothesised these buses. We thank all parents for the cooperation which is shown to bring in force this system. Inaugural function of these buses took place on 7th of June. Rev. Dr Lawrence Dsouza, Secreatry, CESU Udupi performed Prayer Service and Blessed the buses, Mr Sathish Kamath, General Manager Syndicate Bank Regional Office inaugurated the buses by cutting ribbon, Mr S.S. Hegde DGM Syndicate Bank, Mr Ashok Kamath Branch Manager Syndicate Bank Shirva were present during the occasion.

Counselling:

The counselling facility will provide a comprehensive development and lays a positive impact on students. It prepares the students to face challenges, builds self confidence, fills in integrity and infuses humanness to live a happy life. We have Miss Renu Veronica Clinical Psychologist who is our own alumni, performs this sacred job exceptionally well. Many students and parents are benefitted from this facility.

Drawing:

The Drawing class in the School enhances the psycho motor skills, concentration and creativity in students. The positive effects of it are already see. Children with more enthusiasm participate in this class. We thank Mr Shivaraj our Drawing teacher for the hard work and dedication.

Academicals Performances:

* This year CBSE board has brought few changes in the assessment pattern of the students. According to those assessment instructions we have conducted first test in the month of August and Midterm assessment in the month of September. Students are provided with joyful learning activities. The Shift from State curriculum to CBSE curriculum has given positive strokes in the academicals performance of the students. Our students are performing better with the CBSE curriculum also they enjoy working on content enrichment activities.
* We have secured 100% result in the Class VII Diocesan Catechism and Value Education Assessment of the year 2016-2017.
* Avin Vinod Mendonca is the topper in the Catechism and Nasuha is the topper in the Value Education.

Spiritual and Moral Formation:

* A special concern is shown to nurture spiritual and moral values in the students. This has helped the students to form their life in a disciplined way.
* Every day morning and Evening assemblies
* Every day Morning Prayer
* Every month Mass for Catholic Students.
* Catholic Students participate in the Sacrament of Reconciliation.
* Catechism and Value Education Classes.

* There will be a day to celebrate Value Education and Catechism and also one day retreat and Value Education sessions to be held in the month of February

School Cabinet:

* Cabinet Election: School Cabinet is the important segment in the functioning of the School. Election of 2017-18 went on in a Democratic manner on 9th of June. Students were given a model picture of a Democratic election.
* Haston DSouza of class 7th as SPL and Eden Dsouza of Class 6th as ASPL got elected and they are helping us in the smooth running of the school.
* The School Cabinet Installation programme was held on 11th June, 2017.

Extra Curricular Activities:

31. Brannet Nazareth - VIII B 1 Gold
32. Gavin Noronha - VIII B 1 Gold

Participation of parents:

* Class wise Parent Teachers interface programme was conducted from 27th of June to 5th of July. There was a very good interaction from parents. Importance for

each class is given and all Management members were present for all meetings.

* Open Day was organized on 24th, 25th and 26th of October. It was a day to know the performance of the child to the parents and also to have an interface with parents and teachers. The open day sessions were well appreciated by the parents. The next open day session will be organized in the first week of April.

School Website:

The School website portal is www.donbosco schoolshirva.com This website helps us to reach our parents, alumni members and well wishers. All events of School are updated on this website.

Alumni Meet:

Thousands of students those who studied and walked out of the portals of Don Bosco School are shining all over the world. It was our dream to bring together all our students to their alma mater. Alumni meet was organised on 15th of April for about 150 students of Don Bosco School came together to relish and refresh their memories. The next alumni meet will be conducted in the month of December.

Faculty Development Programme:

* Organised four days 24th May to 27th May faculty empowerment programme to all the faculty members. Dr Ganesh Bhat from Bangalore, Mrs Roopa Shinivasan from Bangalore and Mrs Manjuladevi from Bangalore were the resource persons. This training session was a boost to continue with the CBSE syllabus school. The main topics were – Characteristics of an effective teacher, Classroom Management of Effective teaching, Effective English Communication, CBSE overview, and the assessment system. These various aspects and techniques of teaching made a good way to start the new academic year, and the result was seen in the performance of the school.

* The Principal Fr Mahesh D'Souza attended various meetings, trainings regarding administration of School curriculum activities.

* Conducted training on Digital learning on 9th of September. Mr MS Srinivas from Destination Success Digital Pvt LTD was the resource person.

* Organized half year academic evaluation session for teachers on 31st of October. Mrs Manjuladevi Principal of Police Public School Bangalore was the resource person.

Big thanks to our Benefactors:

As we all know the upgrading of the School has got lot of investments. This task wouldn't have been possible without the generous donations of our Benefactors and donors. We thank all our Parishioners, Alumni members, Friends and relatives for showing their good will in a large scale. May God bless all our Donors.

Benefit Show:

As we all know that our School is under the process of upgrading itself to the CBSE Syllabus, a huge infrastructure is blooming up for the academicals needs of the Students. This herculean task has become very difficult for the management to complete. Hence the Management has decided to play a benefit show in order to raise some funds for this infrastructure. There will be a Tulu entertaining drama 'Eduru Kopa' on Sunday 10th of December at 6:30pm at the Don Bosco School Grounds. It is our kind request

to all of you to give hand in hand for this cause. **You may kindly support us by being special sponsors, benefactors and by taking tickets of the show.**

A deep debt of gratitude:

* An institute can function only with the willing hand and active co-operation of all its stake holders.
* We are ever thankful to Most Rev. Dr Gerald Isaac Lobo the Bishop of Udupi and the Director of Catholic Education Society, Udupi
* Rev Fr Lawrence D'Souza the Secretary of Catholic Education Society Udupi and the President of today's programme for their constant guidance and support.
* We wish to express our gratitude to our dear Correspondent Very Rev. Fr Stany Tauro for his support and all that he has been to the School.
* It is our good fortune to have Miss Myrtle L.F. Lewis amongst us as the chief guest of 34th annual day celebration of the school. We eagerly look forward for her words of wisdom.
* We thank today's guest of honour Mrs Varija Poojary for her auspicious presence.
* We are thankful to Mr Wilson D'Souza, Vice President of Parish Pastoral Council for his ceaseless efforts in leading the school towards the development.
* We remain ever grateful to the School Managing committee for their guidance which is a strong pillar to the school.
* Our sincere thanks to the Heads and Staff of Don Bosco & St Mary's sister institutions, which is a powerful witness of love and unity.
* Our staff members both teaching and non teaching deserve a word of appreciation and thanks for their efforts and whole hearted co-operation in moulding the future generation.
* We remain grateful to Fathers of Don Bosco Youth Centre and Sisters of Nativity and Auxilum Convents for their selfless service for the betterment of the school.
* We thank all our junior artists of our School, in a while from now they are going to perform on this stage. Today's programme is based on the theme nature.
* To you dear parents we thank you for your presence here this afternoon which indicates appreciation of what the school does for your children.
* We are grateful to all our Co-curricular activity teachers.

Key board – Mrs Vidya Dsa
Bharathanatyam – Mr Subramanya Navada

MY DON BOSCO

In the heart of a seed
Buried deep so deep
Oh Don Bosco give Sunshine to me
The rain drops may be bright
But in our school there is delight
O! wonderful world outside might be
But you care the star's of nights
Slips slowly down in the sky at night
The moon sails up on high
We are bathed in silver light
The hill, the tree and I

Fahiza, IX A

CLASSICAL DANCE REPORT 2017-18

Instructor - Mr S Navada
Qualification - Vidwath
Teachers in-charge - Mrs Cynthia Pereira, Mrs Maria Anitha D'Souza

2017-2018 Academic year was started with various extra-curricular activities at Don Bosco School. Bharatanatyam being one activity among them; 33 students are trained under the instructor Mr. S Navada who is the vidwath in the field of Bharathanayam.

Classes are held on every Saturday from 9 am to 10.30 am students are divided in 2 groups. Students are well worsed in basics like ತಟ್ಟಡವು, ಮೆಟ್ಟಡವು, ನಾಟಡವು, ವಿಸ್ತಾರಡವು, ತಟ್ಟುಮೆಟ್ಟು and dance forms like ಅಲರಿಪು etc... Students participation in the Classical dance form is found to be very intense, active and enthusiastic.

Students gave their performance on Independence Day and Republic Day showing their partriotism towards the Country. On the School Annual Day celebrations of various sections the cultural programme began with the prayer dances by the Bharathanatyam Students.

◆

HISTORY CLUB REPORT

Clubs in the school provide opportunities to the students to acquire knowledge, skills and use their talents and abilities. Various clubs in the school are the platform for leadership, teamwork, gain knowledge, responsibility, self-discipline and a sense of initiative .

Shivaji history club is one of the clubs in the school which organizes its activities every Saturday from 11.45a.m to 12.30 p.m . Sr.Letitia Pais is the co-ordinator of the Club. Huzaifa Zakir is elected as President, Valine Noronha as Secretary and Hashrath as Treasurer of the club for the academic year 2017-18

There are 58 members from the classes of 8th, 9th and 10th . They are divided into 5 groups. Each group has a captain. Students actively participate in these activities. Some of the activities which we organize are

1. Conducting the quiz competitions
2. Debate on the current issues
3. Displaying the pictures of historical monuments, stamps of various countries on the notice board.
4. Organizing a historical visit to historical places in the local areas.
5. Video shows on the life of the freedom fighters, moral stories and historical events.

These activities help the students to develop historical sense, spirit of patriotism, discipline and love for the country. It is a platform to use their creativity, learn new things, to gain confidence and to imbibe the values lived by our ancestors.

Visit to the places of historical importance has aroused the curiosity, interest to acquire knowledge of the local history and appreciate variety of culture and traditions. Students get ample opportunities to express their views, share their knowledge on the different issues with their fellow students.

◆

ART & CRAFT REPORT

"Education is an all round drawing of the best in a child and man in body, mind and spirit." says Mahamtha Gandhiji. The core aim of education is to foster all round development of a child. All round development of a child consists of intelectual, physical,moral and social development. To fulfill these objectives we need to strike a balance between syllabus, curriculum, books and also co-curricular activities.

Extra curricular activities are positive experiences that contributes to the well being and happiness of children. Students at Don Bosco school along with academic activities are given the opportunities to actively participate in the extra curricular activities.

Craft is one of the extra curricular activities organized in our school to channelize the energy in a positive way and to make use of the creativity of the students. Craft classes are conducted every Saturday from 9a.m to 10:30 a.m. The instructor for Craft is Mr. Shivaraj who is an expert in drawing and craft. The incharge teachers are Mrs. Felcy Mascarenhas , Mrs. Divyashree and Sr.Letitia Pais. There are 52 students from Primary and High School section. They are divided into 10 groups. Students actively participate and use their creativity.

The Students are taught to prepare face mask, lanterns, lotus from paper cup, pen holder, lilly flowers, cup designs, wall hanging designs, butterfly, 3D Lotus, 3D Leaf, ribbon rose, greeting card, tree and leaf craft, collage art and Christmas stars.

They are interested and eager to learn innovative craft items, which creates space for learning. Craft class is a platform for the students to exhibit their art, skill, ability and talents. Exhibition on craft and drawing was organized during the school annual day. Well-wishers, guests and parents appreciated the art & craft work of the students.

A Chinese proverb very aptly states, "Teach me and I will forget, show me and I might remember, involve me and I will never forget". To a great extent the craft classes enable the students to actively participate and be innovative. Completing the crafts successfully will give the students a great sense of accomplishment and pride. As a child begins to explore more crafts, we can add in more and more challenges. Their creativity is stoked, their fine motor skills are refined, confidence and problem-solving abilities are improved.

KARATE CLASS

We encourage our students to take part in sports activities along with their Academic education. One sport the students are interested in learning is Karate. Karate helps children to build both body and mental health. It also gives them the self confidence to face any challenges. Karate Sport also helps children to excel academically.

To fulfill their need to learn Karate, There are two Karate Instructors namely, Mr.Suresh Acharya and Mr Gopal Devadiga they have been teaching Karate to our students for the last ten years.

The Karate classes are held on every Saturday 9.00 a.m to 10.30 a.m

Number of students in Primary section (Boys 50 + Girls 3)

Number of students in High school section (Boys 22 + Girls 1)

Total number of students are 76 (Boys 72 + Girls 4)

Our karate students were participated in various competitions such as Zonal Level, District Level, State Level Karate Competitions.

Zonal Level Competition got held at SAUD SABHA BHAVAN SHIRVA on 03-09- 2017 . District Level Competition held at Bhuvana jyothi Residential school Shirthadi, Moodubidri on 10-10- 2017.

State level karate Competition held at Padubidri on 11-11- 2017. Our proud Karate students had also presented their Karate talents on Annual day programme which was held on 30-11- 2017.

Karate instructors prepared our students to give demonstration on various skills and self- defence techniques of karate.

◆

KEYBOARD CLASS

It is said that "Music is food for soul" Therefore it is important to learn and listen to music. Music is also part of our daily life. We simply can't live without food; likewise we can't live without music which is food for our soul and mental health. There are numerous benefits in learning music and most importantly it gives immense joy and happiness to us. Children who learn music will have sense of fulfillment. One who masters the skill of playing music can achieve many other skills in life such as singing, playing, academic excellence and the list goes on.

Don Bosco School was the first school to provide this opportunity of learning music or playing musical instruments such as Keyboard and guitar to our enthusiastic students. To fulfill their dreams of learning music we have appointed a renowned keyboard instructor and music teacher Ms. Vidya D'Sa and to assist her Sr.Hilda who conducts classes for initial grade students.

67 students from Class V to IX are learning Keyboard Music both Practical and Theory at different Grades. 45 students appeared for Practical Examination on 4th August 2017. The exams were conducted by Melody Music School, Shankerpura which is affiliated to Sandesha Foundations, the College of Fine Arts, Bajjodi, Mangalore.

The students of Keyboard, Music play keyboard and sing Prayer Songs daily during School Assemblies and on special occasions.

Our proud keyboard students had also presented their talents on Annual day programme which was held on 30-11- 2017.

Mrs Irine Rodrigues and Miss Jane Mendonca are in charge teachers. These classes are held on every Saturday 9:00 to 10:30 a.m.

◆

INTERACT CLUB REPORT

"SERVICE TO HUMANITY IS SERVICE TO GOD."

The vision of this club takes action, built international understanding and make new friends around the world; to provide opportunity for young people to work together in the world of fellowship dedicated to the service of international understanding; to recognize and personal integrity.

As a part of co-curicular activities of our school, seven clubs are functioning. It is functioning under Shirva Rotary Club. There are 60 students in the club. They are divided into eight groups. Every week fifth period of Saturday is assigned to club activities. Each group is conducting a programme like organizing a programme. (Master of the ceremony, welcoming, giving a speech, conducting quiz, giving vote of thanks etc)

Mrs. Gretta Noronha is the in charge teacher. Mr. Mohammed Nabeel is the president and Ms. Sherline Menezes is the secretary for 2017-18. Our club was inuagrated on 2nd of August 2017.

As an objective of our club service i.e., we visited Prashantha Nilaya Ashram in Jeppu, Mangalore. It was indeed great opportunity to meet the elderly, mentally retarted as well as orphan children there. We spent nearly 2 hrs speaking, listening to them. The centre is doing really a great work towards humanity and service. This outing took us very near to life and we were brought closer to life.

In the afternoon we visited Manasa water park. We enjoyed, relaxed playing in the water singing and dancing. All the arrangements were good. We enjoyed good food and the best facilities.

◆

YOGA

Yoga is a group of Physical, mental and our spiritual practices or disciplines which originated in ancient India. Our school students are taught with following yoga practice.

- Salutation (Sooryanamaskara).
- Enjoy inspiring others to improve wellness and commit to long-term health and fitness goals, energetic and outgoing with collaborative spirit.
- Serve people to realize the importance of yoga to maintain a sound body and a sound mind.
- Use my in-depth knowledge and understanding of yoga in the field of yoga practice.
- Contact information use yoga as a tool for relaxation and happiness for people in their daily life.
- Use yoga as a healthy life style.

May you move in harmony,
May you speak in unison
Let your minds be in equanimous
Let the divinity manifest
In all your sacred endeavours

Contents

- Warm up Exercise
- Breathing Exercise

Sun Salutation(12 Steps)

Benefits of Yoga

1. Increases concentration
2. Makes you stress-free
3. Improves yur memory
4. Strengthens your bones
5. Stretches and protects your spine
6. Keep your muscles strong
7. Increases your blood flow
8. Prevents joint problems
9. Improves your posture
10. Improves metabolism
11. Increases immunity
12. Makes you flexible
13. Brings harmony to your life
14. Calm your nerve system
15. Improves your reaction
16. Helps you to sleep well
17. Relieves depression
18. Makes you happier
19. Helps you to relax
20. Improves your heart rate
21. Helps you to normalize you weight
    Normalize your blood pressure

HOME SCIENCE

Home Science is an integrated field of study that provides scientific and systematic knowledge about various aspects of family living. It is a vibrant field of study that covers sociology, psychology and community living, nutrition and textiles. It deals with aspects of home and family management. It is both an art and science. It is science because it helps you to improve your family life, offering you knowledge in the field. It is an art because it helps you to manage resource in a skillful manner. Eg: When you present a dish with authentic manner it is an art when a meal offers a balanced nutritive diet it becomes a science.

As a part of co-curricular activities Home Science too is taught as a subject at our school. There are one hundred students from Class V to class IX. The class is divided into ten groups and named after professional Chefs. Each group is headed by a leader from class IX. Miss Ayesha Sahana of Class IX is the leader.

Mrs Gretta Noronha, Mrs Philomina Barboza and Ms Priya Noronha are in charge teachers. Home science class is conducted once in a week i.e. on every Saturday from 9am to 10:30 am.

Apart from cooking, electrical knowledge, table manners, how to overcome stress, knowledge about medicinal plants, how to prepare bouquets and three classes of tailoring were taught by resource persons. So the objectives of home science i.e mould these to be responsible persons to face any challenge in life.

In the initial stages monthly one practical class were given in cooking to the students.

As to establish a good communication and healthy relationship the students from lower class were mixed with higher class. To share responsibility each team was given individual responsibility to prepare food for 25 to 50 people.

They are coming out with new ideology new recipes and wonderful presentation with self sufficiency.

Home science team with selected students hosted refreshment to teaching and non-teaching staff.

The students were very much interested and took part with enthusiasm and zeal. It moulds the students to be a responsible persons who can handle day to day challenges.

◆

YSM ACTIVITIES

The Young Student Movement Club organized an input session on 29-07-2017 on the topic what is YSM and how to conduct the cell meeting. Miss Rosalia a resource person for Udupi Diocese briefed the students on YSM and cell meeting.

A hymn was sung at the beginning of the session. The President of YSM for Udupi Diocese, Renvil Furtado welcomed the gathering. The students were enlighted about the functioning of the YSM, cell meetings and the 5 prominent rules of an YSM student. As a gesture of gratitude and remembrance a token was presented to the Guest.

Avni Ferrao proposed the Vote of thanks. The animators Mrs. Juliet Sequeira and Mrs. Reshma Pinto were present for the session.

EMBRIODERY / FASHION DESIGNING

Mrs. Sunitha Menezes is the resource person for stitching and fashion designing activity. In the beginning the fresher's are taught basic stitches – hemming, tacking, stitching hooks, and button. Then 25 stitches of embroidery like chain stitch, running stitch, stem stitch etc. They are also taught crochet, knitting, cushion, stuffed toys painting, jewelers making etc. Every Saturday 2 hours are given for extracurricular activity. There are 44 students for this activity. The students are from Class 5 to Class 9. Students enjoy doing their activities. The in charge teachers are Mrs. Cecilia Lewis, Mrs. Ivin D' Souza and Ms Sonia.

The students of stitching and embroidery had exhibited their skill through the beautiful embroidery, crochet, glass painting, soft toys, jewelery making and many other items. The items kept on display during the Annual School Day was appreciated by the Chief Guests and audience who viewed them.

HEALTH CLUB REPORT

Introduction:

Health club was started on 00-06 -2017. I Aaron Sharon D'Souza 10ThA the President of Health club is excited to express the report of Health Club 2017-2018.

In our club there are 21 members. Our club incharge is Mr. Yashavantha K.B.

Let's learn about the Health and what is health...?

Health is level of functional and metabolic efficiency of living organism. In short "In humans it's an ability of individual or communities to adopt and self-manage when facing Physical, Mental, Psychological and Social changes with environment. Here are the some topics that we have discussed in our club.

Health Checking

In the first class of health club we learnt about the health and health checking. Therefore our sir told about the maintain ace of the body.

About Body

In the classes of the health club we studied about the health. There were many points in his talk. Before joining the health club we were careless about our health. After joining the health club we came to understand about health. He spoke about 25 minutes. In that talk he told about the parts of the body and not only that he even told the major steps to be taken when an incident occur.

Parts of the body

There are several parts in our body. Parts of the body are very important to a human life. If the part of the body is not there then they are known as abnormal.

Pulse rate

In our classes, first 10 minute we must do some exercise in the class and we must check our pulse rate. It is known by number of beat/ time. It depends on the exercise. By this we can come to know our heart beat. Last two classes we did some exercise and checked our pulse rate.

Types of exercise

There are many exercises in our modern life like some want to make a six packs and body building etc... But in our club we don't do such exercise instead we do Skipping, Dumbbells and Aerobics...

- Neck exercise.
- Shoulders exercise.
- Arms exercise.
- Abdominals exercise.
- Hips exercise.
- Back exercise.
- Thighs exercise.
- lower legs exercise.

STRETCHING EXERCISES

Skipping

From last 8 weeks we are practising skipping exercise. We think that only girls do the Skipping and all the boys were hesitating to do the exercise. Our coach told about Skipping and how to use it. Almost all know the skipping exercise... and many have become slim.

The Workout

Block 1

1. Forward Jump : Reps: **60 sec.**

Jump over the rope with both feet on every revolution, swinging the rope forward (the most basic jump).

2. Side-to-Side Reps: **60 sec.**

Jump a few inches to your left as you swing the rope. Then to your right. Get into a rhythm.

3. Backward Jump Reps: **60 sec.**

Swing the rope backward for each jump.

4. Single-Leg Jump-Left Reps: **60 sec.**

Jump on one foot; land softly.

5. Single-Leg Jump-Right Reps: **60 sec.**

Jump on the other foot.

Block 2

1. Forward Jump Reps: **60 sec.**

2. Alternating Jump Reps: **60 sec.**

Jump on one foot and then the other, back and forth.

3. Foot-Cross Jump Reps: **60 sec.**

Cross your feet over each other on each rep. Alternate the foot that lands in front.

4. Single-Leg Jump-Left Reps: **60 sec.**

5. Single-Leg Jump-Right Reps: **60 sec.**

Block 3

1. Forward Jump Reps: **60 sec.**

2. Double Jump Reps: 30 sec.

Jump high enough that you can pass the rope under your feet twice on every revolution. If you can't do it fluidly, practice it for 30 seconds—it doesn't matter how many times you miss.

3. Backward Jump Reps: **60 sec.**

4. Double Jump Reps: **30 sec.**

7. Aerobics

After the Skipping exercises... our coach told about the Aerobics. But I have never heard the word Aerobics. Then he showed the video clips and explained about aerobics... In Aerobics there are many exercises.

Name of the Exercises;

- Low impact march on the spot
- Mach forward and backward
- Steps to the side
- Double steps
- 'I' shape steps
- V steps

- Step touch in the front and back
- Mambo
- Grape vine with pivot
- Knee raise and hand raise

8. DUMBBELLS

This home routine is created for women and men to workout away from a gym environment. It incorporates the use of dumbbells to increase the resistance of the exercise, but also includes some body weight exercises

This routine is a short, concise workout that targets all parts of the body.

Exercise intensity. Warm Up

This workout should begin with a 5-10minute cardiovascular activity/ exercise, as well as exercise specific stretches to elevate the heart rate and prepare the body for exercise.

Workout Tips

- Hydration is vital while exercising. Ensure your client is drinking throughout the session.
- Advise your client that a carb and protein filled meal is a great post- workout food to help promote muscle growth, i.e. chicken and brown rice.
- Rest between sets should start at about 45 seconds and can be decreased to 30 second as your client progresses.
- Ensure your client has a good understanding of the correct technique for each of these exercises prior to prescribing this routine.

Cool Down

This workout should conclude with a light cardiovascular activity followed by static stretches that target the muscles used in the exercise

Bench Press – Dumbbell

Dumbbells positioned adjacent to shoulders

- Shoulder blades retracted
- Upper back slightly arched
- Push dumbbells directly towards the roof
- Lower dumbbells to start position

Complete 2-4 sets of 8-12 repetitions. Rest 45s Between sets.

Reverse Fly - Bent Over

- Stand dumbbell in each hand, palms facing inward
- Slightly flex knees, bend forward from hips
- Hands in front of knees
- Lift dumbbells laterally, pause at top of action
- Return dumbbells to start position
- Keep arms slightly bent & torso stable throughout Complete 2-4 sets of 8-12 repetitions. Rest 45s between sets.

Lunge – Dumbbell

Feet hip width apart

- Return
- Grip dumbbell in each hand
- Take a large step forward, descend until leading thigh is parallel to floor
- Return to start position by rapidly extending leading leg
- Maintain upright posture throughout Complete 2-4 sets of 12-15 repetitions. Rest 45s between sets.

Curl & Press – Dumbbells

- Stand with dumbbells by side, palms facing out
- Curl the dumbbells to shoulders
- Press the dumbbells overhead

- Lower to shoulders, then to side & repeat
- Maintain posture throughout

Complete 2-4 sets of 8-12 repetitions. Rest 60s between sets.

Side Bend – Dumbbell

- Stand with dumbbell in one hand
- Dumbbell positioned by side, other hand on hip
- Lower the dumbbell by bending to one side
- Lift the dumbbell by bending to the other side

Complete 2-4 sets of 8-12 repetitions. Rest 30s between sets

Plank - Leg to Side

- Begin in prone plank position on hands & toes
- Rotate lower body & kick a foot to one side
- Keep legs as straight as possible
- Return to start position & kick foot to other side Complete 2-4 sets of 8-12 repetitions. Rest 45s Between sets

* Shoulder Flutters - Back & Forth
* Star Jumps
* Push Up
* Squat - Body Weigh
* Calf Stretch - Forward lunge
* Glute & Low Back Stretch – Lying
* Hamstring Stretch – Lying
* Triceps Stretch - Hand On Elbow
* Butt Kicks

A List Of The Best Triceps Exercises

* Dips (on parallel bars, elbows close to body, without forward lean)
* Flat Close Grip Bench Press
* Decline Close Grip Bench Press
* Close Grip Push-Ups
* Laying Barbell or Dumbbell Triceps Extensions
* Overhead Barbell or Dumbbell Triceps Extensions
* Bench Dips

A List Of The Best Biceps Exercises

* Standing Barbell or Dumbbell Curls
* Seated Dumbbell Curls
* Incline Dumbbell Curls
* Hammer Curls
* Concentration Curls
* Biceps Curl Machine

A List Of The Best Hamstring Exercises

* Barbell or Dumbbell Romanian Deadlifts
* Barbell or Dumbbell Straight Leg Deadlifts
* Barbell or Dumbbell Sumo Deadlifts
* Hyperextensions
* Good-Mornings
* Leg Curls

A List Of The Best Quadriceps Exercises

* Barbell or Dumbbell Squats
* Barbell or Dumbbell Front Squats
* Barbell or Dumbbell Split Squats
* Barbell or Dumbbell Lunges
* Barbell or Dumbbell Step-Ups
* Leg Press
* Single Leg Press
* Machine Squat/Hack Squat
* Leg Extensions

A List Of The Best Shoulder Exercises

* Seated Overhead Barbell or Dumbbell Press
* Standing Overhead Barbell or Dumbbell Press
* Overhead Machine Press
* Arnold Press
* Barbell, Dumbbell or Machine Upright Rows

A List Of The Best Back Exercises

* Pull-Ups
* Chin-Ups
* Lat Pull-Downs
* Bent Over Barbell or Dumbbell Rows
* Chest Supported Barbell or Dumbbell Rows
* Chest Supported Machine Rows
* Inverted Rows
* Barbell, Dumbbell or Machine Shrugs

A List Of The Best Chest Exercises

* Flat Barbell or Dumbbell Bench Press
* Incline Barbell or Dumbbell Bench Press
* Decline Barbell or Dumbbell Bench Press
* Flat Chest Press Machine
* Incline Chest Press Machine
* Decline Chest Press Machine
* Dips (on parallel bars with slight forward lean)
* Push-Ups
* Flat Dumbbell Flyes
* Incline Dumbbell Flyes

9. Cool –Down stretches:

This workout should conclude with a light cardiovascular activity followed by static stretches that target the muscles used in the exercise

Static stretches are a stretch that you hold for 20-40 seconds each. They are stretches you should do at the end of your run to let your body know it is time to relax

- Shoulder stretch
- Upper back/chest
- Quad stretch
- Hamstring
- Calf
- Hip flexor/arm reach
- Outer hip
- Butterfly
- neck

Happiness

Happiness comes now and then
We cannot be sure just when
But when its there, enjoy each hour
Because happiness has such a power
Joy to you it will bring
Even make someone else sing
What peace of mind happiness can show
Making you and others glow,
Nurture it, make it last
Forget the troubles of the past
Never fear that it will go
For it could always grow
And then tomorrow there it will be
For happiness can set you free

-Roveena Monis, VIII A

AUDIO VISUAL CLASS

The advantages of teaching through Audio visuals are far more effective than lecturing which often are monotonous and tiring. The more we use the method of audio visuals the better the results. We believe what we see.

Children grasp quickly when they are presented with inspirational videos and will never forget what they watch on the screen as they totally concentrate on audio visuals .The technical devises have greater impact on children rather than stand in lecturing.

In our school we use these methods to our children so that they remember what they see and hear through Audio visuals.

We basically use or present inspirational stories or life experiences of famous sports personalities so that children are encouraged to participate in sports. We also present a few life stories of people who struggled in life and have come up through hard way. Also we show the stories of handicapped people who have achieved success in sports as well in other in fields so that children know that physical problems can be overcomed and one can achieve success despite their cripple conditions or being handicapped.

We also provide videos of moral values and devotional so that they grow as fine human beings alongside academicals success.

RIDDLES

The dress you cannot wear – Address
The cherry you cannot eat – Pondicherry
The city you cannot enter – Electricity
The rope you cannot pull – Europe
The jam you cannot eat – Traffic Jam
The ship you cannot ship – Freindship

SCROLL OF HONOUR

to Mrs Emelia Sanctos

(Presented on the day of send off)

'A Teacher plants the seeds of knowledge sprinkles them with love and patiently nurtures their growth to produce tomorrow's dreams'.

The much awaited day has come to say not Farewell, but Fare thee well to a personality who is less of a teacher but more of a mother. It's painful to say goodbye, but let's engrave in our hearts that goodbyes are for those who love with their eyes and not for those who love with heart and soul.

Mrs Emelia Josephine Sanctos was born on 13th March 1958. She is the daughter of Late Gration and Monthi Sanctos of Mangalore. Being the youngest amongst 6 brothers and one sister she was the cynosure of the family. Her main source of inspiration and support in all her endeavors is Mr Richard D'Souza. In the beautiful garden of their life bloomed 3 beautiful flowers. Late Royce who adorns the garden of his creator. Second Rainy and the youngest Rayan.

Her education was at the famous Jerosa School and Teacher's Training at Capitanio. To her noble teaching profession she has rendered 38 years of service, 3 years in Hemavati Convent, 3 years St John's School, Shankarapura, 4 years in Government School at Ullal. On the 6th of September 1990 she entered the premises of Don Bosco English Medium School, Shirva and served with full dedication and love for 28 years till her retirement date 10th April 2018. For 6 years she taught class 1st and then UKG.

It is rightly said 'A good education can change anyone but a good teacher can change everything. Holding the teensy-weensy hands and tender pure hearts she has moulded the lives of many students. Her ever smiling face is her logo, her charm, politeness and gentle correction will never be forgotten. She is a gifted singer and artist. She saw to the students' perfect way of writing, taught the lessons, rhymes in a friendly way. She not only taught them to count numbers, but to count what is best in life. Until she enters the classroom, many a students were reluctant to get in, seeing her they would grandly, smilingly enter the class. She never got bored or tired listening to their chatter. As an ideal teacher she has ignited the fire that fuels a student's thirst for knowledge, wisdom and values. There were rocks, stumbling, stones and tragedies in her life but the angelic smiles, talks and activities of her students enabled her to forget and mingled with them happily. An awesome teacher like you is hard to find, difficult to part with and impossible to forget. Today dear teacher we wish you Good-Bye and express our gratitude to you from the bottom of our hearts for touching our lives with your smile and love.

The walls of the school will feel hollow, corridors will feel empty and classroom will feel lifeless without the inspirational presence of a teacher like you. As you enter a new phase of a blissful retired life we wish you Good Health, happiness and peace of mind at every step you tread. Cheerio dear teacher. Fare thee well. May God Bless and Guide your way.

◆

PARENT TEACHER'S INTERFACE PROGRAMME

"Education is a shared commitment between dedicated teachers, motivated students and enthusiastic parents with high expectations."

On 13th March 2018 a Parent Teacher Interface Programme was organised in two sessions. One in the morning for Class LKG to 4th and in the afternoon from Class 5th to 9th. The Guest speaker was Prof Mathew C Ninan the ex-Principal and the present Director of Little Rock School, Brahmavar. The morning session started at 10.00 and afternoon at 2.00.The teachers sang the prayer song and welcomed by Mrs Irine Rodrigues-morning, Sr.Lethisia Pias-afternoon. Guest introduction was done by Principal Rev Fr. Mahesh D'Souza. The talk given by Prof Mathew was very relevant and much appreciated. He laid the stress that if the father of a child is stationed here then both of them have to attend the PTA meetings. The logic behind, is it that if parents give importance to the activities of the school, then the child learns automatically to give the importance to his/her school. In today's world the word in vogue is parenting where parents need to have lots of skills and responsibilities to handle a child. It has become a tough job sensibly and sensitively. Sometimes parents are defensive and supporting towards their child's behaviour, their unconditional love doesn't mean they have falsify the facts.

A teacher can identify the students behaviour among the peer group, seniors etc and make the parents aware of it. At this juncture parents should co-operate with the teachers. Education is not just passing the exam, but shaping and moulding a child's life and future. To start a CBSE school is the need of the hour and many throng for admissions in these schools. Why CBSE? It is directly under HRD, Govt of India. The syllabus is prepared by the National Council of Education Research Training-NCERT. It enables and prepares a child for various entrance exams like CET, NEET, JEE Mains etc. Command over English language which will help in communication for the future. Parents don't compensate on fee structure and consider it as an expense rather accepts it as an investment for your Child's future. Select best teachers and to retain them management has to pay well. To get an infra structure at the beginning itself is really noteworthy

and count yourself fortunate to get it on a platter. To install all the gadgets and necessary equipments it cost a lot and the maintenance too is very high.

In today's world technology is a great distraction for students. Give your child what they want and not what they need. Today's young generation suffer from plenty and lack of vitamin N and that is to hear the world NO. See the child is neatly dressed as that helps in building Self Confidence. Appreciate the child when it does something good. Never touch your child in anger. We have three types of parents: 1) Passive parents – no control over the children 2) Excessive parents – no freedom for children 3) Assertive parents- Parental authority. Never worship your children. Parent's judgement is subjective whereas teacher's judgement is experienced. Today's parents compensate their time and love with material gifts. Some doubts and clarification questions were raised to which Prof Ninan gave convincing and satisfactory answers. The Principal's announcements in regard to some changes for the next academic year. Arrangements for the meal will be near to the school as a new canteen will be constructed and will be ready by June. At present we have 4 K.G teachers next academic year there will be 6 teachers, new play area, snacks and milk twice a day. The dates of the results of each class were informed. Note books and text books would be given on the result day. Class 1 to 6 will have the new uniform, please place your order as to how many pairs you need. Uniform shoes will be provided from the school in the month of September. About school Re-opening will be informed later as now we will be fowling Central Board Orders.

In his Presidential address the Correspondent expressed his gratitude to Prof Ninan for stressing on important points to the parents, giving a clear picture of CBSE education system and clearing certain doubts. He has been a great guide and adviser to Fr. Mahesh from the moment we implemented the CBSE curriculum. Parents try to remember and inculcate some of the points mentioned by him. His entire talk was based on child centred. I pray God Almighty shower him with good health and peace of mind. You are witnessing the immense change in the infra structure of the school building and the campus. To provide this we had to spend a lot of money, but God is with us and I have full faith and confidence that our Mother Mary will provide all our needs to accomplish the task. Parents every day we are walking a step forward and you are co-operating and walking with us in all our endeavours. We are ever grateful to you and pray God Bless You All.

As a token of our love and gratitude a memento was presented to Prof Mathew C Ninan by the Correspondent.

The Vote of Thanks in the morning was proposed by Mrs. Cynthia Pereira and afternoon by Miss Renu D'souza.

Morning programme Mrs Cecilia Lewis compered and second session, Mrs Gretta Noronha. The roots of education are bitter, but the fruit is sweet.

◆

ENDOWMENT PRIZE LIST

We greatfully acknowledge the generosity of the following donors for their kind generosity to donate permanent prize fund for the school

Sl	Particulars	Purpose
1.	Late Rev. Fr Aloysius Rosario Memorial Prize Fund	90% above of class Ist to VII
2.	Late Master Royce Vinet D'Souza Memorial prize fund founded by Mr Richard & Emilia D'Souza	Top scorer in Catechism of Class VII
3.	Late Rev. Fr Henry Castelino Memorial Prize Fund	Top scorer in English of Class VII
4.	Late Mr Louis Felix Pereira Memorial Prize founded by Mrs. Cynthia Pereira	Top scorer in Maths & Science of class 7th
5.	Late Master Melwyn Pinto Memorial Prize Fund founded by Mrs & Mr Anthony Pinto	Top scorers of class 1st
6.	Mr Felix Lobo Memorial Prize fund founded by Mrs Sweeta Lobo	Top scorers of class II nd
7.	Mr Joseph & Mrs Cecilia Menezes Prize fund founded by their children	Top scorers of class IIIrd
8.	Mr Benedict Tauro Memorial Prize fund	Top scorer of Class VII
9.	Mr. Robert Lobo Memorial Prize Fund founded by Members of Secular Franciscan	Top scorer in Catechism of class VI
10.	Late Rev. Fr Lawrence Gomes Memorial Prize Fund	Top scorer in Catechism & Value Education of Class 1 to VII
11.	Mrs Pauline Ferrao	Top Scorer of UKG
12.	Mrs & Mr Mark Martis	Top Scorers of class I
13.	Mrs & Mr Ronald D'Souza	Top scorer in HIndi of class VII
14.	Mr Mathias D'Souza & Fly	Top scorer in Value Education of class III
15.	Mrs Irine Machado	Top scorers of class IV
16.	Mr Borgea & Mrs Gracy D'Souza	Top scorers of Class V
17.	Mrs Monica Dias Endowment Prize Fund	Top scorers of K.G. Section
18.	Endowment Prize fund by the students of 7th std 2000-01 Batch	Top scorer in Kannada of class VII
19.	Endowment Prize fund by the students of 7th std 2001-02 Batch	Top scorer in catechism of class IV
20.	Mr Robert Lobo Memorial Prize Fund founded by Cecilia Lobo	Best Athlete

Sl	Particulars	Purpose
21.	Francis Robert Lobo Memorial Prize fund founded by Mrs. Cecilia Lobo & Children	Top scorer of class VIII
22.	Joseph & Cecilia Menezes Memorial Prize fund founded by Ms Leny Barboza Gurunja	Top scorer of class IX
23.	Benedict & Clara Furtado Memorial Prize fund founded by Mrs Maria Jacintha Furtado	Top scorer of Class X
24.	Old Students of 2013-14 Batch	Highest in Kannada of class VIII & IX
25.	Ms Priya D'Souza Bantakal	Highest in Kannada of class X
26.	Shirva Welfare Association Kuwait	Highest in English of class VIII & IX
27.	Old Students of 2005-06 Batch	Highest in English of class X
28.	Old students of 2015-16 Batch	Highest in Hindi of class VIII & IX
29.	Ms Priya D'Souza Bantakal	Highest in Hindi of class X
30.	Old students of 2011-12 Batch	Highest in Maths Science of class VIII
31.	Old students of 2007-08 Batch	Highest in Maths Science of class IX
32.	Old students of 2006-07 Batch	Highest in Maths Science of class IX
33.	Old students of 2010-11 Batch	Highest in Social Science of class VIII & IX
34.	Muralidhar Tantry Memorial prize fund founded by Mrs. Supirta Tantry	Highest in Social Science of class X
35.	Mr Alban Pereira Jantra	Highest in Catechism of class VIII
36.	Mr Ronald Menezes, Gurunja	Highest in Catechism of class IX
37.	Rev. Fr Lawrence Gomes Memorial	Highest in Catechism of class X
38.	Old students of 2012-13 Batch	Highest in Value Education of class VIII & IX
39.	John Celestine D'Souza Memorial founded by Mathias D'Souza, Bantakal	Highest in Value Education of class X
40.	Rosario & Celestine Machado Memorial prize fund founded by Mr Norbert E Machado	90% above of class VIII, IX & X
41.	Herald Menezes Memorial Prize fund founded by Mr Simon Menezes	Best Handwriting Prize
42.	Mrs Emilia Sanctos & Family, Shankarapura	Kindergarten Section

THE WAYS TO GET SUCCESS

- Mrs Philomina Barboza
Head Teacher

Desire of each one of us is to succeed in all walks of life. However, just desire alone is not sufficient to get the desired results; proper planning and execution of such plans is really important. One needs to work hard in that direction. Some of the ways to achieve success are

Know yourself: If you know your strong points or weak points, personality, values, positive attitude, negative approach etc, it becomes all the more easier to get success. Continue with your good qualities and take steps to curtail or minimize your negative qualities. Your patience, perseverance, hard work, sincerity etc, help you to take you to greater heights. Laziness, anger, impatience, casualness etc, will be the road blocks in your quest to achieve success. You should not be too rigid or too loose in your approach and should always be balanced and flexible in your approach and actions. In case someone has pointed to you or you yourself have felt that you are drifting in the wrong direction, you should immediately take remedial measures to tread the right path. As A.P.J. Abdul Kalam said, "Man needs his difficulties because they are necessary to enjoy success." You need to learn lessons either from your own past experiences or out of the failures of others, so as not to repeat such things in future. This is one of the important stepping stones of success

Time Management: Discipline plays a vital role in our day to day activities and is definitely a major contributor in success. "Early to bed early to rise" is the time tested mantra for success. Successful sportspersons, artistes, singers, professionals, industrialists, political leaders and several others have practiced this simple mantra to get success in their respective fields. It is always better to have one 'To do list' which will constantly remind you the jobs to be done and this needs to be revised periodically. Time Management is always considered as one of the foremost in the road to success. As the saying goes 'Time and tide wait for none.' If you are able to utilize your time judiciously for all the proper things, then you can reach unimaginable great heights.

Priorities to 47

the things: Taking care of our health is very important. That is why always health is considered as wealth and without proper health we cannot achieve anything in life. One should remember that reading is to mind, as exercise is

to body. Regular exercise meditation hobbies etc help us in keeping us fit always. If we have no time to enjoy with our family the very purpose of hard work will be defeated. If we take steps to organize our priorities, we are sure to succeed.

Importance of sharing: Just as you gain the knowledge from different sources; it is your duty to pass on such information to others. The secret of your success or your knowledge on various subjects to be passed on to others by way of writing articles or by giving talks or through informal chats. As far as possible be a guiding force in the lives of other people.

Reading is Important: Life itself is a school where you learn lessons after lessons. Reading, understanding the subject, studying etc, is all continuous processes. Reading need not be limited just to get a degree or a certificate from a University. One should keep on reading thought provoking articles and books to expand one's horizons. The writers view points are to be analyzed and can be implemented in one's life considering its worthiness. Also, one will not or need not know everything on this earth, but should be able to collect the information quickly whenever situation warrants.

Above all one should have the self – confidence and optimism that he is sure to reach his goal. As Samuel Johnson, renowned English poet said "Self confidence is the first requisite to great undertakings." There are always opportunities available in one's path. Only thing is sometimes, these opportunities are in the form of some problems and one need to take steps to solve such issues. Then success follows automatically.

Good Friends

A good friend is someone
who does nothing much with
and finds nothing so much fun

A good friend is talking and talking
about everything under the sun

A good friend is someone who really is good
When, you've worked for and won a success

Someone you don't have to be on your guard with
or be what you aren't to impress

A good friend is so many wonderful
all mixed in a marvelous blend

Janvi Shetty, VI A

EDUCATION SYSTEM AND BENEFITS OF CBSE SYLLABUS

Mrs Jenevia Dsouza
(Old Student)

In ancient times, India had the Gurukula system of education in which anyone who wished to study went to a teacher's (Guru) house and requested to be taught. If accepted as a student by the guru, he would then stay at the guru's place and help in all activities at home. This not only created a strong tie between the teacher and the student, but also taught the student everything about running a house. Modern education system brings in the process of classroom teaching and the entire day is divided in a way that children are able to study all major subjects,languages,smart classes,Computer education,teaching life values,games and recreation.

The school system in India has four levels: lower primary (age 6 to 10), upper primary (age 11 and 12), high (age 13 to 15) and higher secondary (age17 and 18). The lower primary school is divided into five "standards", upper primary school into two, high school into three and higher secondary into two. Based on the age of a student the curriculam is decided by the education board.There are mainly 3 streams of education system in India a) State board b) CBSE and c) ICSE board.While CBSE was originally meant for the children of central government employees who are periodically transferred and would have to move to different part in the country.ICSE is been helping the students flying from International destinations to local area to continue their education due to varied reasons.State syllabus is the education system run by the Government and is been followed by many government and private schools in India.

It's a happy moment for Don Bosco School Shirva that CBSE education system is been deployed from the regular syllabus and has also completed successfully 1 year of teaching.CBSE is lot more student friendly and it is designed to ensure that students do not face lot of pressure and books are made interactive and interesting.Lot of fun activities are included in between chapters to help students learn in a playful way. CBSE exams are very conducive to a positive environment for students. All the efforts are taken to ensure that the students actually learn from the entire process. They don't need to mug up things to pass the exams.

The papers are designed in such a way that they test how much the students have learnt. The results are mostly favorable and very few

students fail in CBSE exams.It not only imparts the Quality knowledge to the students but also ensures overall physical and mental growth.It offers lot of flexibility to students to pursue their field of interest .CBSE also has international syllabus that is useful for students to connect with the world in latest technology.Students studied with CBSE board is prepared and enabled so that he/she would easily pass any competitive exams.Schools are advised to include many indoor and outdoor games that will help in the physical and mental development of the students.

Games like chess,puzzles help them to build mental capability while outdoor activities like badminton, volleyball, skating, swimming help them build their physical capability. Modern infrastructure and facilities as instructed by the CBSE board helps the students to study in a perfect environment and with well equiped modern tools.

Its been a proud moment for me to express this , Don Bosco English Medium School has been a strong pillar that helped me to be in a good career today.Teachers and the staff management of this school are brilliant and have got lot of knowledge in them, which would help the students to be more active,intelligent and responsible at all aspects of their life. Wishing all the students and staff management of the school all success and blissful years to come.

◆

THE CHRISTMAS EVE

One day I was wandering
The nature seemed fresh and cool
As it was the season of winter
The birds were twittering and chirping
Even I was singing and dancing
Suddenly I heard the sound of some bells!
And I anxiously came running out of my house

And I saw that he was a man with big beard
With a red coloured hat
And he also laughed Ho! Ho! Ho!
And he called me near by
And gifted me a box full of chocolates
I loved and enjoyed it and at last
I found that it was none else but
the loving Santa

- Sharon D'Souza, VIII B

JOURNEY THROUGH COUNSELLING

Mrs Renu D'Souza
School Counsellor

Being a human, we were never promised a bed full of roses without thorns, but we are constantly placed in a bed full of beautiful roses along with the thorns. Whether young or an elder, all have to go through the same phase. Some pass through it very efficiently and some go through a lot of difficulties. And that's where the counsellor's role comes into limelight.

There are a lot of people who can give you advice, but there are few who walk with you and guide you through your journey. Counselling is a process where a client (the one who seeks help) speaks freely about the feelings, emotions and the worries to the counsellor. Counsellor is a trained individual who tailors and designs a help to the client with the help of various other techniques.

A counsellor is not a person who sits you down and tells you what to do, instead the counsellor will encourage you to talk about what's bothering you in order to uncover any root causes and identify your specific ways of thinking. The counsellor may then look to create a plan of action to either help you reconcile your issues or help you to find ways of coping.

Counselling can help you understand yourself better and the way you think, which will ultimately help you develop a clearer understanding of your problems. The more armed with information you are, the easier it gradually becomes to navigate your way through any difficulties you are facing so that eventually you can come out the other side feeling more positive. Counselling can also help you understand other people's point of view better, which can shed light onto the way you interpret words or actions.

You can seek help for few of the followings.

Academics :

If you are constantly lacking back in your academics or you are not able to cope up with your academics, counselling can help you by providing various measures.

Addictions

Wherever there is a physical addiction to a substance or activity there is likely to be a psychological addiction too. Counselling aims to relieve the psychological addiction by exploring the root cause while helping to develop new ways of thinking.

Bereavement

Losing a loved one is a difficult event in anyone's life. The loss can bring up a wide range of emotions including guilt and anger. Some people benefit from speaking openly to a counsellor about their feelings to help ease the process and resolve any remaining issues they may have.

Bullying

Being the victim of any form of abuse, whether it's verbal or physical can lead to issues that may affect you all of your life. Counselling can offer victims the chance to seek help from authorities (if appropriate) as well as addressing the psychological repercussions in a safe environment.

Mental Health Issues

Suffering from a mental health issue such as depression can feel incredibly isolating, or your loved ones are suffering from it and you are emotionally affected by the same. Counselling looks to discuss the feelings that arise in conjunction with these kinds of mental health issues as well as overcome any personal challenges or frustrations.

Relationships

Covering all types of relationships, counselling can be used to discuss issues within families, friendship and couples. Problems could involve anything from a poor relationship with a parent through to an abusive relationship.

Trauma

Whether you've been involved in an accident or you have been the victim of abuse, the psychological impact of trauma can last years after the event itself. In a counselling session trauma victims are encouraged to explore their feelings regarding the incident and look into how these could be resolved or changed.

Other

Feelings of stress, exam anxiety and anxiety regarding know or unkown issues and low self-esteem are dealt in counselling. Counselling can offer practical advice for overcoming these kinds of issues as well as allowing you the space to vent your frustrations and feelings.

While dealing with the above mentioned issues, counsellors may not give you concrete advice or a checklist of things to do to feel better, what he or she will do is help you uncover your own insight and understanding of your problems providing you with the tools which will help you

to resolve them on your own.

Counselling is not giving advice or being judgemental towards you or your problems, attempting to sort out the problems of the client. Expecting or encoraging a client to behave in a way in which the counsellor may have behaved when confronted with a similar problem in their own life. Getting emotionally involved with the client. Looking at a client's problems from your own perspective, based on your own value system.

The Counselling Process

Counselling often requires you to discuss upsetting emotions and painful memories. Bringing up these thoughts can feel difficult to start with and, intially, you may feel worse. This process is necessary to move forward and in time, you should start to feel better.

To get the most from your conselling sessions you should aim to make them consistent. Some sessions will feel more helpful than others, but it is important to realise that everything the cousellor is doing is designed to help you in the long run, even if it doesn't feel like it in the beginning.

It is also worth remembering that counselling is not a quick fix and that the counsellor will not be able to tell you what to do. The counselling process requires a strong relationship between you and the counsellor and a degree of effort on your part-together these two elements create a successful method to help you resolve your issues.

Who Will Know You Are Coming For Counselling?

Unless you choose to let others know that you are coming to counselling, no one will know. The counsellor cannot and will not disclose whether or not you have made or kept a counselling appointment. The counsellor will maintain strict confidentiality about your involvement in counselling. If you choose to allow your consellor to share any information about you, your consent must be provided.

You may at first feel counselling is not working at a go. But counselling is a slow process and not a magic trick. With good amount of patience and motivation you can come to terms with your issues. Counselling is a wonderful journey to start with, to be understood and to understand better. Let us find peace in our self and create a better world be live in.

CBSE SYSTEM OF EDUCATION

Mrs Irine Cardoza
Vice Principal

A child is a precious gift of god. Children today are getting good parental care. They are offered ample of choices in everything including education.

When it comes to education system there are multiple options like CBSE, State Syllabus, ICSE Syllabus etc. One of the popular curriculums is the CBSE System.

CBSE System:

The Central Board of Education was formed officially in 1962 with sole purpose of make a common standard and platform for every student in the country. From only 302 affiliated schools in 1962 CBSE is today affiliated with a whooping 18000 + schools in the country. 20 countries follows CBSE Syllabus today.

Vision and Mission:

The basic vision of CBSE is to inspire learning for physical, emotional, social and intellectual well being of students. The CBSE, a pace-setting National Board of School Education in the country, aspires to be a centre of unmatched excellence for providing quality education by continuously raising the educational standards to meet the national and global needs through the dual process of affiliating schools within and beyond the national geographical boundaries and conduct of examinations at the end of classes X and XII.

Historical Backgrounds:

A trail of developments mark the significant changes that took place over the years in shaping up the Board to its present status. U P Board of High School and Intermediate Education was the first Board set up in 1921. It has under its jurisdiction Rajputana. Central India and Gwalior. In response to the representation made by the Government of United Provinces, the then Government of India suggested to set up a joint Board in 1929 for all the areas which was named as the 'Board of High School and Intermediate Education, Rajputana'.

The Board witnessed rapid growth and expansion at the level of Secondary education resulting in improved quality and standard of education in institutions. But with the advent of State Universities and State Boards in various parts of the country the jurisdiction of the Board was confined only to Ajmer, Bhopal and Vindhya Pradesh later. As a result of this, in 1952, the constitution of the Board was amended wherein

its jurisdiction was extended to part-C and Part-D territories and the Board was given its present name 'Central Board of Secondary Education'. It was in the year 1962 finally that the Board was reconstituted. The main objectives were to serve the educational institutions more effectively, to be responsive to the educational needs of those students whose parents were employed in the Central Government and had frequently transferable jobs.

The jurisdiction of the Board is extensive and stretches beyond the national geographical boundaries. As a result of the reconstitution, the erstwhile 'Delhi Board of Secondary Education' was merged with the Central Board and thus all the educational institutions recognized by the Delhi Board also became a part of the Central Board, Subsequently, all the schools located in the Union Territory of Chandigarh. Andaman and Nicobar Island. Aurunachal Pradesh, the state of Sikkim, and now Jharkhand, Uttaranchal and Chhattisgarh has also got affiliation with the Board. From 309 schools in 1962, the Board as on 26.07.2017 has 19316 schools in India and 211 schools in 25 foreign countries. There are 1118 Kendriya Vidyalayas, 2734 Government/ Aided Schools, 14860 Independent Schools, 590 Jawahar Navodaya Vidyalayas and 14 Central Tibetan Schools.

In order to execute its functions effectively, Regional Offices have been set up by the Board in different parts of the country to be more responsive to the affiliated schools. The Board has regional offices in Allahabad, Ajmer, Bhubaneshwar, Chennai, Dehradun, Delhi, Guwahati, Panchkula, Patna and Trivanthapuram. Schools located outside India are looked after by regional office Delhi. The head quarter constantly monitors the activities of the Regional Officers. Although, sufficient powers have been vested with the Regional Offices, issues involving policy matters are, however, referred to the head office. Matters pertaining to day-to-day administration, liaison with schools, pre and post examination arrangements are all dealt with by the respective regional offices.

The main objectives of CBSE

The CBSE to reach its present pre-eminent position has come a long way since 1929 continuously expanding its jurisdiction and over reach both nationally and globally. Major activities of the Board as it stands today are;

- Fulfill the educational requirements of those students whose parents are employed in transferable jobs.
- Affiliation of institutions at secondary and senior secondary level for the purpose of examinations with emphasis on raising the academic standards.
- Approval of middle class syllabus.
- Prescription of conditions of examinations and conduct of public examinations for the students of affiliated schools at the end of classes X and XII.
- Grant of qualifying certificates to the successful candidates of the affiliated schools.
- Prescription and updating of the courses of instruction of examinations.
- Conduct of All India Pre-Medical / Pre-Dental Entrance Examination (AIPMT); All India Engineering Entrance Examination (AIEEE); and All India Entrance Test for Jawahar Navodaya Vidyalayas.

- Grant of autonomy to schools of higher order amongst those affiliated to the Board.
- Adopt & Innovate methods to achieve academic excellence in conformity with psycological, Pedagogical and social principals.

The prime focus of the board

Towards raising the standards of school education, the CBSE focuses upon:

- Enriching the curriculum to suitably respond to the contemporary and futuristic needs in the new world by offering a number of electives in Science, Social Science, Languages and Vocational courses at +2 (Senior Secondary) level.
- Reforming examination system and evaluation practices.
- Regularly updating the pedagogical skills of teachers and administrators by conducting in service training programmes, workshops etc.
- Innovations in teaching learning methodologies.
- Skill learning by job oriented and job linked outputs.
- Publication of text books and work books to fill up the gaps in the publications available from other sources, like the NCERT.
- Carrying out institutional and systematic reforms in policies relating to grant of affiliation of schools and their assessment to make the process more accessible and transparent.

How the CBSE is organized

The Board was established by a Govt. Resolution as a self financing autonomous organization with the Secretary, Ministry of Human Resource Development, Govt. of India as its Controlling Authority. It has its headquareters at Delhi with eight Regional Offices at Delhi, Allahabad, Guwahati, Chandigarh, Ajmer, Chennai, Patna and Bhubaneshwar.

The Headquarters of the CBSE are at :

Shiksha Kendra, 2, Community Centre, Preet Vihar, Delhi - 110 092

Who are the clients of the Board

The Board mainly deals with the following clients:

i) Schools affiliated with the Board and their students through the respective schools for examination and instruction related matters.

ii) Candidates of entrance examinations conducted by the Board viz. JEE, AIPMT, CTET, JNV admission test restricted to registration, test and declaration of results.

What does CBSE expect from its clients?

From the schools

- Maintain and strive to improve the instructional and infrastructural facilities continuously.
- Eschew all acts of unfair practices.
- Be a standard bearer and model to other sister institutions.
- Become part of Sahodaya School Complexes to share resources and experiences for mutual benefit.

From the students

- A sense of pride in being a privileged part of CBSE of school system.
- Internalize discipline and ethos of CBSE
- Eschew all acts of indiscipline.
- Strive for all round excellence with a healthy competitive spirit.
- Promote national integration.
- Eschew all acts of malpractices, particularly during examinations.

From the Parents

- Be proactive in relation to school activities in general and their wards in particular.
- Participate in Parent Teacher Meetings and make constructive suggestions for improvements and express concerns fearlessly
- Pay adequate attention to their wards of the school.

From societies / trusts etc. sponsoring schools

- Ensure the school is running as per the conditions of affiliation.
- Upgrade the facilities in the schools as and when the norms and standards are revised by the Board.

From the teachers of the affiliated schools

- Active participation in the training programmes conducted by the Board.
- Upgradation of academic and professional competencies.
- Facilitate smooth, fair and disciplined conduct of various examinations.

What does affiliation mean?

Affiliation is a sort of certification that the school is quality driven and strives for excellence in all aspects of its activities which enables the school to become a member of CBSE family and allows its students to appear in examinations conducted by the Board.

What type of schools are eligible for affiliation?

- Govt. or Govt. aided schools in the NCT of Delhi and the states which do not have their own Boards.
- Schools run by Kendriya Vidyalaya Sangatan (KVS), Navodaya Vidyalaya Samiti (NVS), Central Tibetan Schools Administration (CTSA), Sainik Schools Society
- Schools run by PSUs or socieites formed by them
- Private, unaided self-financing schools established by Registered Societies / Trusts / charitable organizations.

How affiliation is granted

Any school in India which fulfils the essential conditions can apply in the form available on-line to the Board with minimal manual interference (For detailed conditions and procedure, please see the Board's Affiliation Bye-Laws).

Access to Information

CBSE is a public authority under the Right to Information Act 2005. List of PIO and first Appellate Authority for each of its Regional Offices and the Headquarters is available on CBSE website at www.cbse.nic.

◆

YOUTH PATRIOTISM AND NATION'S DEVELOPMENT

- Ms Francita S Menezes
Alumnus

Not gold but only men can make
A people great and strong;
Men who for truth and honor's sake
Stand fast and suffer long.

Brave men who work while others sleep,
Who dare while others fly...
They build a nation's pillars deep
And lift them to the sky

The above lines are the extracts from the poem "The Strength of the nation" by the poet Ralph Waldo Emerson. The gist of the poem says the strength of the nation is the people living in the nation, and the youth are the real pillars and they lift the glory of the nation high to the skies. India is the youth hence our nation is also known as the young nation. That makes our entire population issue a blessing to us. India has a competitive advantage in its demographic dividend that is the proportion of working people in the total population is high. It means more people have the potential to be productive and contribute to the growth of the economy. Besides we are also the highest English speaking population that's why the entire world looks up to us for our employability skills. Nation development and patriotism go hand in hand and the youth of this nation are indeed the real asset provided that they should be motivated and directed towards the proper cause and the result is nothing but growth.

Swami Vivekananda famously known as the patron saint of youth once said Give me a 100 youth and I will change the world. He further continued saying "My faith lies in the younger generation and they will bring India out of all problems like lions". That visionary always knew that the youth are the real and a precious resource of the nation that will take our country a long way ahead.

In order to make the youth productive and motivated they should be trained from their grass root level. India already had a well-shaped education system our learning technique is rote learning where conceptually we build ourselves strong as against enquiry based learning. Our youngsters are toned up under such training that they have in a way become masters and are shining on the top cadres of leading corporate houses in the world. But the nurturing should begin from the early stage. The hard work with the sense of patriotism will make a great difference. We already have opportunities like NSS and NCC in our schools and colleges. NSS teaches the youth to put nation first ahead of everything under its mission statement "NOT ME BUT YOU". And NCC builds up valour courage responsibility and patriotism towards the nation. More and more

students should be encouraged to join the nation building programmes.

Development not just means economic development or shining in the corporate world. There are very many examples where highly educated youth have come back to their home lands and have focused on agriculture and allied activities and thus they have tried to make a difference. A recent newspaper article spoke of an IIT graduated boy who decided to quit his high paid cheque and till and plough the land and use his skill and knowledge to apply science and technology in agriculture in Varanasi. Few people decide to give up their lavish jobs and lifestyle and decide to serve the nation in its defence and administrative structure. Youth have the ability not just to gasp new things and happening in the world but they can easily adopt themselves to change hence more and more youth should come up and make up their mind to participate in the political stage as well.

Brain Drain and migration is an issue that we are facing lately. Many of our youngsters are simply moving out of the country for various reasons some for the greed of money some others pointing out the loopholes in our country and complaining about almost everything. Like John F Kennedy once said "Ask not what your country can do for you" we should always strive to give the most of our knowledge and skills for the betterment of the country and see what we can give to our country.

Our society is filled with a lot a values and principles even today we respect and adore the principles of Ahimsa of Mahatma Gandhiji and follow age old Vedas and Upanishads thus we can proudly say the youth of this nation do not support gun culture. May be out of the lot a few youth are distracted about communal regional and other controversies but their ratio is really low and still depleting. In the High context society culture which is embodied with trust based relationship with the family, security love moral values youth will remain always focused and goal oriented.

◆

स्कूल की याद

घर में होते हम जब
स्कूल की सोच होते ही बोर ।
स्कूल में जब मेड़म बरसे
घर की याद में हम तब तरसे ।

माताजी का आशीष मुझको
दे रहा है मंजिले मुझको
पिताजी की डाँट जोर
ले गया सफलता की ओर ।

स्कूल में हम को मेडम की डांट
देती सबको सीख की बाँट ।
जब यह स्कूल थम जाता है ।
मन दु:ख से काँप जाता है ।

स्कूल में हम को मेडम का प्यार
घर में हम को माँ का दुलार
काश यूँ ही जीवन चलता रहे
हम विद्यालय में पढ़ते रहे

ROLE OF PRACTICAL TRAINING IN DEVELOPING PROFESSIONAL COMPETANCY

-Ms Francin Menezes
Alumnus

I quote Confucius, "I hear I forget; I see I remember; I do I understand; I do is practical training". Sarvajna a veteran kannada poet and philosopher said "kelavam ballavarinda kalthu, kelavam maalpavarinda kandu, kelava taane swathaha maadi thili yanda sarvajna".

A great thinker Chinese philosopher Confucius of 6th century and a kannada poet of 16th century then, through their thinking have propagated the importance of practical training. Confucious emphasized on understanding a concept which is very well achieved by doing it. And Sarvajna also believed in do and understand principle. His quote meant – "Learn a few things from others who know, Learn few other things from your observation, and few other things by practising it yourself". Certainly there is no substitute for practical training. Now a question arises what is the relevance of practical training in developing professional competence?

Commonly it is said that "practice makes a man perfect". Why? If we acquire some knowledge and skill and use it often it goes and settles in long term memory. It will not simply wither away because it is stationed in short term memory. Next question is – Isn't the theoretical knowledge enough? Why do we need to practice a thing over and over again in order to attain perfection? I would like to touch a bit of psychology here. There are four stages of competence, it famously known as "conscious competence learning model" which explains us the process of progressing form incompetence to competence. The four stages of learning provide a model for learning. It suggests that individuals are initially unaware of how little they know, or unconscious of their incompetence. As they recognize their incompetence, they consciously acquire a skill, then consciously use it. Eventually, the skill can be utilized without it being consciously thought through; the individual is said to have then acquired unconscious competence. Relating it to our article ship.

Unconscious incompetence : Initially when we register we are not aware of anything, even about all work we are expected to learn. What are the skills required etc.

Conscious incompetence : In this stage as we have already recognized our deficit we start addressing it. Start getting help from our seniors our principal sometimes from the online forums, we start referring books and so on.

Unconscious Competence : In this stage we articles are supposed to be so well versed that working should become our second nature. Means even in our deep sleep we should be able to answer the doubts and clarification. This level

of professional competency is gained only through rigorous practice. An only then we can be professionally competent.

Ancient times Sages stated in this order: In Sanskrit 'Shravana' means listening, 'Manasa' understanding. Third is Siddhiyasana – applying the knowledge consciously into practice. Application of knowledge is the need of the hour today. Today the market is not open just for qualified people but only for skilled qualified people. CA course definitely stresses upon practical training over years. And thus we have three years of article ship training. The vast curriculum along with the rigorous practical training requirement is to ensure that the competent professionals carry the baton of the profession forward. Theoretical knowledge alone cannot make a perfect professional. Both theoretical and practical knowledge should go hand in hand to become a perfect professional.

Article ship is the Golden period in the CA student's carrier How a CA undergoes it, would have an impact on what type of CA he/she would like to become. An adage quotes – "one cannot give what what one doesn't possess" Taking article ship lightly would have an adverse impact on training and overall experience. We all aspire and work hard for a better career. Is it possible to make a career in CA without proper practical training? The answer is a 'BIG NO'. Two major career opportunities are available for Chartered accountants after completion of CA course. Viz job and practice. If we talk about the first one, the pass certificate can at best give them interview letter. It is difficult to face the interview board and convince them of what they want-knowledge of problem solving capacity. The experienced interviewers would assess the depth of knowledge and lack of it within no time, even if one gets the job one may not be able to perform or deliver the desired results and their survival in the organization could be at stake.

Today the role of a chartered accountant is much widened in the industry and corporate sector. Generally they play a strategic role by providing professional advice relating to tax matters, not just that they play a major role in serious business decision like mergers acquisitions, finance managements so on and so forth. This work requires a thorough understanding and clear conceptualization which could be achieved only through practical training. Increasingly large corporations and the MNCs, are looking for such professionally skilled aspirants rather than simply qualified. As far as practice is concerned it is impossible to set up one without practical knowledge. Not just that there are various skills like soft skills corporate skills etiquettes work culture systems team work in short the various behavioural aspects can be learnt over a period of time not just in a day.

Talking about the exam perspective definitely there is a direct correlation between training and examination, there is no denying training adds value to a student's grasp and comprehension of the subject. A dentist basically acquires his skill from the practical world of a dental surgeon's clinic. At chartered accountancy, this is supported by the fact that students who have had a good exposure to taxation in their article ship tend to do their tax papers well and those who have had a proper exposure to audits ten to sail through their audit papers.

To conclude - "There may be postal coaching for any academic degree or diploma, but not for swimming, if one has to learn swimming one has to get drenched in water. And that is practical training.

◆

THE MOON

We can see the moon during the night time. Its looks beautiful in between the stars. It is looking like a lamp in the sky. On the full moonday the moon's shape is like an 'O'. I love to see the moon and I wish to go to the moon. I will bring it with me to play.

- Alriya Saldanha, LKG A

MY MUMMY

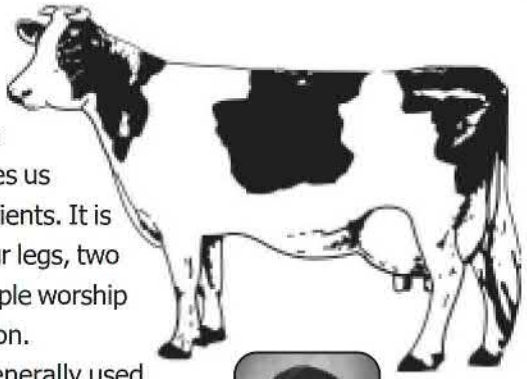

My mummy is the most precious person to me. She is the first teacher to me. I love my Mummy because she always teaches me good things, like how to respect teachers, elders and parents.

Mummy is the person who always guide me in the right way. She alway tells good moral stories to me. I am very happy when I am with my Mummy. I feel very proud of my Mummy.

- Amogha, LKG A

THE COW

The cow is a very useful animal. It is a domestic animal. It is found all over the world. It gives us milk. Cows milk is very useful for the children and patients. It is gentle by nature. The cow has a large body. It has four legs, two horns and a long tail. It has two ears. In India the people worship the cow. Th cow is given mothers status in our religion.

Cow dung is also a good fertilizer which is generally used to cultivate fields for better growth of crops. After a cow dies its skin is used in making shoes, bags etc. So the cow is a very useful animal to us.

- Samarth, LKG A

MY PET ANIMAL

I have a pet cat. It's name is Shuzuka. It is white in colour and it has lovely green eyes. It is very soft and furry. It has a long and round tail. Its four legs have some sharp claws by which it can easily kill the rats. I like Shuzuka very much for its good nature. I give it, fish, meat, milk and rice to eat. It plays with me when I come back from school. It likes to play with a ball in the garden. It loves me and shows its love by licking me when I come back from school. It sleeps in a small basket near by bed. I love my pet very much and take good care of it.

- Fathima Ziyana, UKG A

MY PET DOG

Pets are like our family members. I have a dog as my pet. His name is Tommy. It's colour is white. Tommy is very active and playful. It is very faithful and obedient. It shows love and respect to our guests by welcoming them. It loves playing with the ball and both of us spend lot of time during the holidays. At night it guards my house. I love my Tommy very much.

- Elston Castelino, UKG B.

MY CLASSROOM

I study in Upper K.G. 'A' Section. My classroom is very clean and neat. We have 15 desks and 30 chairs in our classroom. There is one big table and a big chair for mam. We have one big green board and a smart board in our classroom. I see rhymes and stories on that board. My classroom walls are painted with orange and white colour and so many charts. I love my classroom.

-Mahima Shettigar, UKG A

MY GRANDPARENTS

Grand parents are the oldest member of the family. They are the most important people in our life. They are those people who care for us selflessly and love us endlessly. My grandparents are also loveable and caring. They also advice us and show us the right path. I love my grand parents.

-Bhuvan Poojari, UKG A

My Classroom

Classroom is a place where we students study. My classroom is very big and airy. There is sufficient sunlight. The teacher sits infront of us. She has a chair and a big table. My classroom walls are painted with blue and white colour. There are 30 students in our class. We sit on blue chairs. We have separate shelves to keep our bags and bottles. There is a big blackboard infront of us. The teacher writes on it with a piece of chalk. There are number of charts and pictures on the walls. My classroom is clean and beautiful. I like my classroom.

-Aaron Mendonca, UKG B

My Grand Father

My grand father is the head of our family. He is sixty five years old. But he is very active. He loves all the members of our family. He tells me many stories and plays with me. I always thank God for giving me such a caring and loving grandfather. I love him so much.

- Prathvik Acharya, UKG B

DR B.R. AMBEDKAR

Born in a hut, amidst misery
Rose to a height and became a 'History'!
Your journey from your way....
It was difficult... very difficult...un measurable!

It is a sin for a low caste to gain knowledge
From that sin you rose like an Encyclopaedism
Your journey was not easy!
But you tried... tried... successful !

You won glory?
You earned hard fruits of your labour!
A model to the world to follow your way!
A ray of hope from where you came or
Your co-brethren

You are a man beyond comparison!
A book of knowledge, creator of constitution
You are a true Bharataratna Dr B R Ambedkar

- Mrs Gretta Noronha, Teacher

SCOUTS GUIDES SPENT A DAY OUT AT KUNJARGIRI

Pranamya Tantry
7th B

There is a proverb "Whole day work and no play makes Jack a dull boy" and hence, not to make our Scout Guides dull and bored at school, we took them out on an excursion to a famous hill mountain called Kunjargiri. It was also an important day "World Thinking Day" i.e. 22nd February 2018 and a perfect day for hiking.

The students left the school at 9:40am and reached Kunjargiri cross at 10:00. It was a perfect day for hiking, a day of sunshine with light breeze keeping us cool on the way up to the hill.

The hiking took place group wise, first being the All Faith Prayer Group which was the rose and wolf patrol. Second in line was Flag Construction Group which was lotus and tiger patrol. Third was Cooking Group which was sunflower and cheetah patrol and the final and fourth was Cultural Programme Group which was jasmine and horse patrol. We came across, by following some signs.

We set up our camp for the day at a very famous spot where Sri Madhwacharya (A Hindu Philosopher (Also known as Purna Prajna and Ananda Tirtha) was born in the year 1238. Upon settling down the camp Flag construction was done.

The day was fun-filled and had lots of entertainment and fun. The students invoked God's blessings through prayer service by All Faith Prayer group followed by refreshments of tasty snacks and juices. It was indeed very refreshing after a long walk to the camp.

A short Assembly was organized and after the assembly the scouts were taken to Shri Durga Devi Temple, Kunjarugiri.

It's a famous temple situated on a hillock near Sri Madhwacharya's birth place. The scouts

were excited as it was a walk to the hill top where the temple is situated. The scouts enjoyed the walk to the temple and walked shouting "Bharath Scouts and Guides ki jai". It was a very amazing journey and every student enjoyed the walk which was climbing nearly 150 steps in the cool weather.

Once on top the scouts had a beautiful view of the surroundings which covered Padubelle/ Moodubelle/kurkal grama filled with beautiful coconut and many other trees and flowers. Distantly they could even spot the Kaup Light House which can only be viewed from Kunjarugiri Hills. It was indeed a beautiful and memorable view to be remembered for ever.

Upon instructions from teachers students had a pious and quiet visit of the temple and some students even prayed. Excursion day finally came to an end leaving behind vivid memories of the day. It was indeed a day full of information, fun and joyful lifetime experience.

◆

MY COUNTRY

India is my country and I love her. Bharat is her Indian name but everyone calls her India. India is a very big country and one of the oldest civilizations in the world.

My country is a land of villages and fields, laden with crops. I am proud of her villages, from where Indian civilization has grown. Most of the great leaders of our country came from villages. Our fields are fed by the mighty rivers like the Ganga, Yamuna, Brahmaputra, Godavari, Narmada and Kaveri. The most fertile region in our country is the land through which the River Ganga flows. To the Hindus, the River Ganga is a holy river.

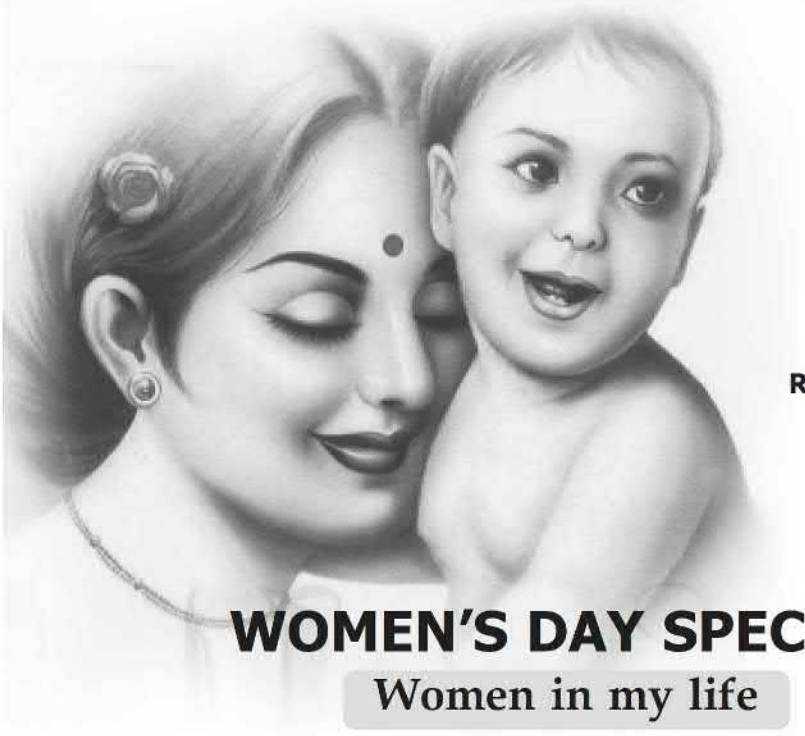

The Indian coastls are washed by seas on three sides and the Himalaya in the north forms a high wall, separating us from other countries. Our neighbouring countries are Afghanistan, China, Tibet, Nepal and Myanmar.

In my country we speak many lanuguages, worship many gods, dress in different traditional clothes, eat different kinds of foods, enjoy many festivals and we are all one in spirit which binds us together.

My country has many beautiful locations and historical places, so thousands of tourists visit India every year.

Rishal D'Souza, 6th B

Rishal Nola D'Mello, 10 B

WOMEN'S DAY SPECIAL

Women in my life

Emotional yet the rock, tired but keeps going worried but full of hope. Impatient yet patient overhelmed but never quits. Amazing, even though doubted. Wonderful even in chaos. Life changes every single day. 'Yes', she is a woman. We all have different women in our life. From a known women to a stranger. But, their character's that they play are all the same.

Here, I would like to express my feeling about women in my life who are life changers every single day. A women who lays aside her dreams for the sake of her family and wants to see best in her family. An extremely hard working woman who wouldn't give an excuse for her work to get done. I love spending my time with her, talking laughing. She laid the foundation for my life, teaches me to do good to others no matter what, encourages me inspires me to cook. I am talking about my 'Mom'. The tears she shed, the pain she went through, I am so grateful to her.

An Educator' for 12 years, they were funny, sharp and simply the best. Very strong women just like my mother they are my beautiful loving teachers. Who have filled me with immense knowledge, faith, love, friendship, criticism, encouragement, sporting, confidence and helped me to discover my talents.

A teacher ignites the fire that fuels a students thirst for knowledge, curiosity and wisdom, 'yes', this quote goes true. All my teachers have always been a constant source of inspiration to me. To the world you may be just a teacher but to me you are a hero.

Women are very important in life. Without her no man can exists in this world. On the occassion of women's day let us thank women in our lives for being beside us in every step we take.

MY EXPERIENCE ON HIKING

Rikita Saldanha, IX B

"Climb the mountains and get their good tidings,
Nature's peace will flow, into you as sunshine
flows into tree"

The day 22nd February is 'World thinking Day, which is Baden Powel's birthday. We were all so excited that day as we had to go for a hiking.

At 9 O'clock we started our journey from the school campus. In between they stopped and told us to find out the destination. Then we started our hiking. Initially, we were divided into four different groups. 1. All failth prayer group, which is the rose and wolf patrol. 2) Flag construction group which is lotus and tiger patrol 3) Looking group which was sunflower and cheetah patrol 4) Cultural programme group which is jasmine and horse patrol.

Our Scout Captain had given us proper instruction how to reach our destination. We followed wood craft signs and moved forward. It was a thrilling experience. There were totally 54 signs. Then we reached the destination that is Pajaka Kshethra at 10.00 am. After reaching, there we had all faith prayer. We went to the temple and made all the arrangements to conduct 'All faith prayer'. Colourful Rangoli was done, hymns were sung with reverence. Holy scriputure were read. It cultivated a prayerful atmosphere and harmony.

Later Bulbuls and cubs too joined us. Then we had refreshments. It was very nice. Flag construction was done by the respective group. We all gathered in front of the flag. We sang prayer song and flag song.

Guide captain Cynthia teacher welcomed the gathering. Scout captian Umesh Sir gave us some instructions. We marched towards the temple at Kunjargiri. We walked around 2 kms and climbed 124

steps with the spirit of enthusiasm. Shouting slogans of 'Scout Guide Bharat Matha Ki Jai'.

We reached the temple. For a little while we relaxed outside the temple under the cool shade of the trees. We went back to Pajaka which is the birth place of the famous social reformer Shri Madhwacharya. Then around 1 O'Clock we had our lunch. It was so delicious everybody relished the food and had lot of fun. At this moment I thank our beloved Principal Fr. Mahesh D'Souza for all the arrangements he had done for us. Later around 2.30 p.m., Scout Captain conducted some competition like quiz, pick and act etc. Prizes were given to the winners. We were all happy through out the hiking. Then at 3 O'Clock we assembled near the flag pole and lowered the flag with respect. At 3.15 pm we returned to the school.

Hiking day finally come to an end leaving behind vivid memories of the day. It was indeed a day of information, knowledge and joy. It was a life time experience. At this juncture I would like to quote "There is no WI-FI in the forest but we promise you will find a better connection".

FRIENDSHIP

Friends are found every where
But true friends are very rare
Friendship is for those who share
Sorrows and joys every where
A true friend is of great value
For he is the one who cares for you
If you find true friends, it is a light
And you can make your future bright

A miracle called friendship
Dwells in your heart
You don't know how it happens
or when it gets its start
But the happiness it brings you,
Always gives you a special lift
then your realize that friendship
Is one of gods most precious gifts !

Nishma M. Pinto, VII B

She works very hard
She cooks delicious food for me
She caught my hand
And taught me ABCD
She made every second of my life special
Who is She?
She is my mother ofcourse
She is my backbone
She is my light
I love her very much
More than any one else in my life
She is my guide
In the whole mankind...

- Haily Cabral, VIII B

- Anjali, VII B

1. Did you know why the new born babies cry when it is born?

   Its because, when the babies breathes for the first time. Its lungs stretch out and dilate to fill up with air in one single movement. This hurts and so the babies cry out. Inside its mother's tummy, it lived in a liquid environment and had no contact with air.

2. Do you know why hippopotamuses live in water ?

   Hippopotamuses cannot but live in water. Their skin is so thin that if they remained in the sun, water would evaporate from their system and they would die of dehydration. They go up on land to feed only at the end of the day.

3. Do you know why we yawn?

   Yawning is our body's reflex to fight against tiredness and hunger. When we yawn our lungs inhale a great quantity of air which stimulates our brain and regulates the oxygen level in the blood. This refuels us for a few moment and keeps our brain alert.

4. Do you know where do these nightmares come from?

   Nightmares are triggered by the memory of things experienced or seen. Which have frightened us. They are such terrifying dreams that we wake up! It is proved by studies that seeing certain violent films or pictures can bring on nightmares too.

5. Which animals have the strongest jaws?

   It is the hyenas. Though they are just the size of a big dog, their jaws enable them to crush bones whereas even those of lions are not capable of doing this. This is the reason why hyenas can eat up carcasses abandoned by other predators.

6. Did you know liver is the body's largest organ. In the adult, it weighs around 1.5 kg. It helps in digestion by producing bile and filters the bloods to recover the sugars, fats or vitamins that the body needs. It then distributes them over to the organs that need them.

7. Did you know world's largest fish is the whale shark which is actually shark that resembles..... a whale! Between 12 and 20 metres long. This giant feeds only on plankton, macroalgas, krill, crab larvae and small squid and vertebrates.

8. Did you know the world's smallest bird is the bee humming bird which is of 5 and 6 centimeters and weighs arounds 1.95 grams. It is the smallest bird in the world. It's eggs are the size of a small pea and its nest is no bigger than a thimble! It feeds on the nectar of flowers, or on small insects.

9. Do you know the pupfish is the smallest desert fish. It lives in water puddles formed after a heavy shower. It can withstand water up to 45 degrees centigrade, but as soon as the water puddle evaporates. It dies, its egg, buried in the sand, waits for the next rain to hatch.

10. Do you know the ducks do not get wet in the water. The duck wreathes its feathers in fat. This balm is made by a gland situated close to its tail. The duck rubs its head there, then twists itself to spread the fat over its feathers.

11. Did you knows the python bites its prey to catch it, but its teath do not inject any venom into it as is the case with several other snakes. It kills its victim by wrapping itself around it and by squeezing its rings. Thus, It strangles and crushes the prey before swallowing it whole.

12. Why do people decorate pumpkins for Halloween?

    An "Irish legend says that somebody called Jack had made fun of the devil, and so had to undergo the latter's vengeance at the time of his death, He was condemned to wander between heaven and hell by the light of a lantein dug into a turnip. The American's replaced the turnip with the local pumpkin.

◆

TERRORISM

Amongst these joyful laughs
There's a fear, a senseless fright;
Amongst these smiling hearts,
A feeling that nowhere is right

A safe place, the house of God
To raise arms and seek refuge
Reaching God before time
Taken down by the rising deluge

Heartless are the men we say
Who create such awful terror
Ask them, they don't agree
Because once open then a "hour and then a day
There are victims everyday

- Shanel Correa, V B

DEFORESTATION

Neil S. Fernandes, VII B

Earth is a planet where different types of organisms are found. Some are living and some are non living. One of the living organism is plants. Plants play an important role in our surroundings. They provide oxygen, shade, shelter, fruits, etc. There are different types of trees. Some give wood, gum, medicines, fruits and so on. The trees, plants which were very useful for human beings have dissappeared. Where have they dissapeared? This is the question which we should ask to one another.

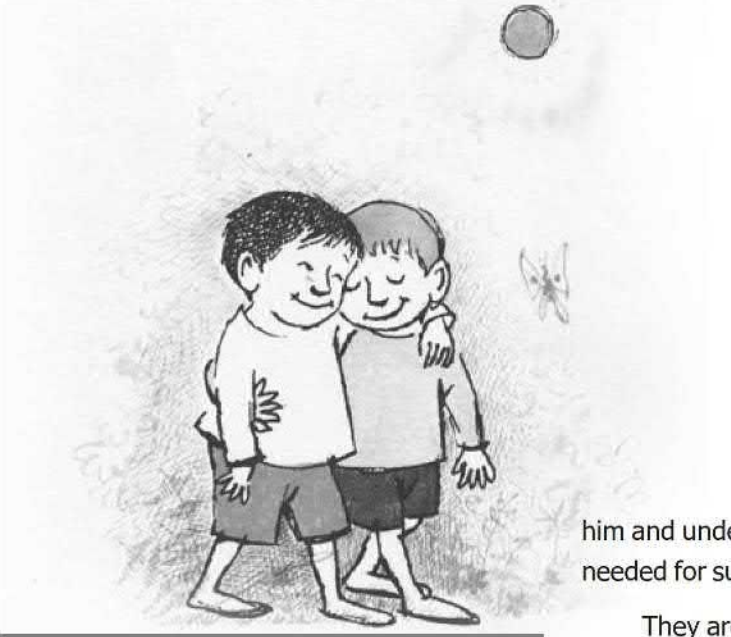

So lets have a brief discussion on this matter. What is deforestation? A simple definition to this is cutting down trees. This is what deforestation is?. Deforestation increases the amount of carbon dioxide. When we visit a city we feel very hot; why are city's hot? Because there are no forest because of huge multi storeyed buildings.

If we have a deep study on deforestation there will be much information about it. Deforestation will cause global warming. The protecting layer of the earth will be destroyed. The snow of the polar region will met, which will increase the water level and flood the coastal areas. Due to global warming we may melt during day and freeze during night. Who started deforestation why was it started?

Deforestation was started by human beings to fulfil his needs. Needs like making furnitures out of wood, constructing of houses etc. To earn profit man cuts trees. The reason for cutting down tree is the increasing population. If this continues various types of diseases will spread. Due to this earth may be destroyed. So, if we need to save our mother earth we should take some measures.

Firstly to reduce pollution the usage of cars should be decreased and use cycles because they do not pollute our environment. The factories which give out smoke should be shut down. We might see many ministers plant trees, do they water them everyday, do they put mansure to the plants. If we only plant them they will not grow, we should take care of them. We might hear that government provides free saplings, let us get them and plant as well as take care of them. So, in the end let this be effective with this let us be alert and save our mother earth.

◆

- **Shaina G. Gomes,** V A

FRIENDSHIP

"Friendship is one of the most precious gifts of life" and "A faithful friend is a medicine of life". "Friendship is a ship that never sinks" these proverbs will come true to life if you find true friends. A person who has true friends in life is lucky enough, friendship makes life thrilling. It makes life sweet and pleasant experience.

Friendship is a feeling of love, sharing and caring. It is a feeling that someone understands you and appreciates you as you are without any hope, difference and exaggerations. It gives a feeling that you are 'wanted' and that you are 'someone' and not an unkown person in the crowd.

Friendship is both good and necessary. A man cannot live all alone. He is a social being. He needs someone to share his joys and sorrows. Generally, it is only the people of the same age, character and mentality etc. Who can understand him and understands his problems. Friends are needed for support and for sharing.

They are needed to turn to when one is in trouble and facing difficulties. According to the great Roman Statesman Cicero, 'Friendship increases happiness and diminishes misery, by doubling our joy and dividing our grief'. Friends are needed in every stage of life. Friendship has no age limit.

We must choose our friends very carefully. We must spent much time with them. We must remember the saying "All that glitters is not gold". In the same manner we must by apparent show of friendship. Many friends remain with us in the guise of good friends and lead us to the right path.

We spent much of our time with them. Their mental outlook, behaviour and attitudes affect us too. We need to distinguise between fair-weather friends and true friends.

Lasting friendship is indeed, a blessing. Good friends are the pillars of life. They help us to stand erect in life. True friendship is a great asset in life.

BENEFITS OF READING NEWSPAPER

-Anola D'Souza, IV B

A newspaper is a form of printed media, consisting of a number of sheets of printed papers. It contains informative articles on current affairs, education, events, reviews and advertisements. The newspaper is a necessity in modern life paving way for creating opinions and building views.

Newspapers were developed in the 17th century and now are printed almost every where across the globe. The news papers are also available in e-paper formats in the internet and the new generation news portals are vital in sharing news events soon after its occurrence. Newspaper contains information on politics, entertainment, religion, economy, society, movies, food and other prominent events.

The world is recovering with changing technology and thoughts. Reading newspapers is a good habit which promotes a great sense of educational value. News papers shares information on the events happening around the globe. It is a hub which provides information on latest invention, technology researches, discoveries and much more. It will also improve our language and grammar. Reading newspaper is a good practice, news facilitates education to all.

The first newspaper in India was printed in Bengal in 1780. Newspapers were Vital in freedom struggle of India, it played larger role in promoting nationalism and patriotism among Indians. Post Independence newspapers have been very vital in promoting education, ideas and views among Indians. The news papers have influenced innovation and sense of creativity among young students who thrive to secure the future of India.

Newspapers play Vital role in society. It creates awareness on health and other aspects of life. The news paper has pools of information on lifestyle, social living and education. Newspapers strengthen the ideals and values of

the society. India is a developing nation which is also known for flourishing economy, newspapers have classifieds on jobs and walk-in which help the young citizens to get placed. The newspapers have also information on economic growth, finance other issues on economy.

India is a democratic country; political developments make major headlines on newspapers. It is very important to the people to assess the political situation in the country. Newspapers create opinions on the politicians which helps the people to vote their leaders who can lead the country towards development. Today newspapers are a highly organized industry which gives jobs to numerous people. The essence of journalism is strengthened by newspapers who pose tough questions. The newspapers today have given birth to e-papers and news portals which are easily accessed on mobile phones and computers. The newspapers are essential to the flourishing society.

EQUALITY AND JUSTICE

Nasuha, VIII B

There was a primary school in a small town. The class teacher of the sixth standard was good and a loving person. She had a free period at the last hour of every Friday. She spent that hour with her class students. Every week she had some very interesting things to do. A nice story, an interesting game, a quiz programme, asking the students to tell stories or sing song any of these would take place during that period. The last month was still interesting because the teacher, with due permission, would take the children out to different places for a short picnic. The children would also, with the permission of their parents participated in the picnic.

One day the teacher took them to a seashore the children liked it very much. They played on the sand and the waves. It was a wonderful picnic when it was getting dark the teacher called them and said to get ready to go home. As they were getting ready one of the boy started to cry. His name was Arun the teacher asked him what was the matter Arun replied "teacher I had kept my golden ring on my bag here. It is missing now". Arun was very sad and cried bitterely. The teacher was also upset and enquired the children if anybody knew about the ring all the children responded negatively. Now there was a boy in the class, by name Hari. He was from a very poor family and a dull student. He would not join others in the games or any programme. The other children were also not very interested on getting him to join them. As usual he did not join the other children in their games on the sea sand. He was sitting silently where the children had kept their bags and shoes. Naturally the children suspected that Hari would have stolen the ring. All the children

also began to say something about Hari. The teacher asked "Hari you are the only boy who was near the bags. You must know what happened to the ring. Now tell me where is it?" So Hari replied, "I don't know teacher, I saw it on his bag. But when all came there, I did not notice". The teacher said, "this does not solve the problem did anyone come this side"?

"Didn't see anyone teacher" Hari said. "Then I am sure that you're hiding something. You are scared now. I give you time to accept. Tomorrow morning before the classes begin you must come to me and confess what you know about the ring. If you don't do it you will be severely punished. The teacher said Hari also cried bitterly. Pleading that he was innocent. All went back to their home. That night one girl of that class Priya was rolling here and there without sleeping. She said to her father what had happend on the seashore. "I wish to go there tommorrow morning before anybody comes I will find it and save poor Hari" said Priya's father. On the following day Priya and her father went to the seashore and started searching for the ring. Priya's father got a ring which was burried in the sand. They were sure that it was Arun's ring because its size was small and fitting a little boys Both of them went to school and gave The ring to the teacher. The teacher was very sorry that she was in hurry and blamed innocent Hari, she praised Priya. Then turning to Hari she continued "We are sorry Hari cheer up and be happy". She said to all the children not to go against Hari because he was poor and dull but to accept him in their group as their equal.

CHILDREN ARE NATION'S WEALTH

The child of today will guide the fate of the nation tommorrow. He would run the administration, develop industries and complete with other nations in trade and communication. He is the real wealth of the nation. It is the right of the children and our duty that the innocent lead a proper life. They should enjoy all the facilities of games, food and education - whatever caste or community they belong to. It is rather shameful that nearly about fifty percent of the children in our county have to work torturously on roadside restaurants, match stick factories, the rug industry besides working in fields. Let us save the nations wealth for in its becoming lies the blossoming of the motherland.

Arnika M. Rai, VI A

STUDENT'S ROLE IN SWACHH BHARAT

Sharlene Menezes
X A

"Don't Litter, It makes the world better".

The great person of India Mahatma Gandhiji said "Sanitation is more important than Independence". India is still a developing country because of poverty, lack of education, lack of cleanliness and other social issues. We need to eliminate these bad effects which are causing obstruction to the growth and development of our country and I think that cleanliness drive will be the best start of eliminating the social issues. Only success of cleanliness drive may bring a huge success in India.

The Prime Minister of India Mr Narendra Modi has started "Swachh Bharat Abhiyan". Its main objectives are make available individual toilets, eliminate open defecation, keep the villages clean etc. This mission is the ultimate goal to make India a clean country having happy citizens.

One of the best and most important initiatives taken by the government of India Swachh Bharat Abhiyan aims at the clean and hygienic country. But is Swachh Bharat an initiative only for government? Are we, the youth's not responsible for the current state of cleanliness and hygiene of our country? Yes, then let's come together and help the government to achieve this initiative. Let's make common goals like they should not have even a single plastic waste, garbage's must be cleared out daily by the municipality. Keep our surrounding clean and proper disposal of waste.

Is cleaning only the work of Karmacharis? Do citizens have no role in this? We have to change this mindset, 'Cleanliness is next to Godliness'. This proverb fits in the life of students. Cleanliness tells about our personality and character. Students play a very important role in making India clean there are large number of students in our country and they are educated or in the process of learning. Cleanliness and hygiene are the subjects that students learn in their lessons they can put the principles in practice

and also they can help the ignorant people become aware of these. Students throw paper waste when and where they like. They are ignoring the benefits and importance of keeping their surroundings clean. They are forgetting the benefits of cleanliness. Students should know their role in their community and even in their country. They should clean their society and should not throw any kind of garbage. They should also encourage others to take a step towards cleanliness and also give information about the benefits of cleanliness. Students are the future of the country. They should know their responsibility to take the future forward.

Students can participate in competitions like essay writings, painting, poster etc. This makes them more aware about the problems of cleanliness in India. At public places during functions students can contribute to Swachh Bharat. Mahatma Gandhiji dreams of making India clean and emphasized a lot by many means among rural people. However could not complete by the incomplete participation of people.

Students are the future of the country. So we, being students should understand our responsibility towards our country and have to make an attempt to fulfil Gandhiji's dream. If we all the citizens of our country work hand in hand then within a short time we will be able to achieve the goal. So come up India let's start Swachh Bharat Mission.

Clean India, Green India, My Dream India.

TENSION

The moment you are in TENSION
you will loose your ATTENTION
Then you are in total CONFUSION
And you'll have IRRITATION
Then you'll spoil personal RELATION
Ultimately, you won't get CO-OPERATION
Then your BP may also rise, CAUTION
and you have to take MEDICATION
Instead, understand the SITUATION
and try to think about the SOLUTION
Many problems can be solved by DISCUSSION
Which will work out better in your PROFESSION
Don't think it's my free SUGGESTION
It is only for your PREVENTION
You'll never come again to TENSION

Clarin, X A

PROBLEM OF RISING PRICES

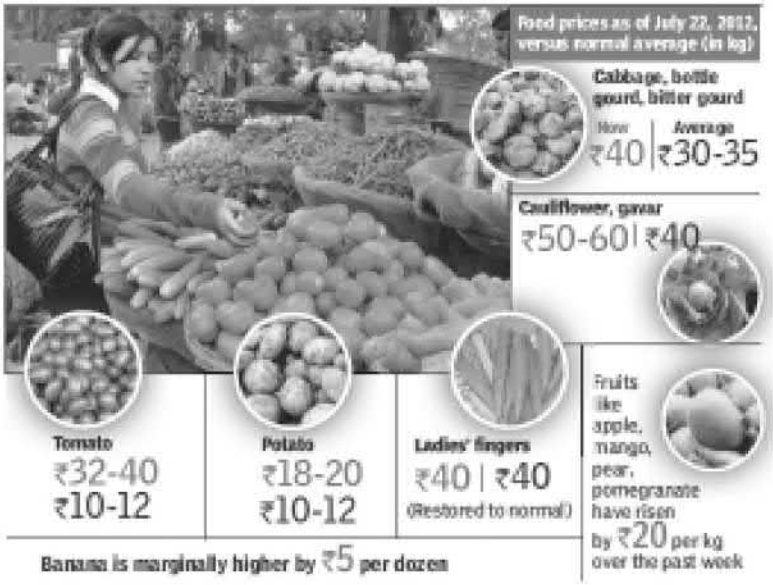

- Valine Noronha, IX B

The problem of rising prices is the greatest economic problem of our country today. It is cutting the throat of millions today because millions of people find it hard to manage for one square meal a day. All days work does not promise them for sufficient food to eat and drink. Although it has affected universally, yet it has rendered the life of poor people to pull on and the number of poor people in India is far greater than the rich people. So it is the problem of the whole country.

These do not render to seek out. There is a craze to become rich as early as possible. The industrialists, manufacturers and middle men people in order to gain high profits have increased the prices without showing any soft corner on the poor consumer and purchasers. Big industrial concerns became economical empire and dictate their own terms to common needy helpless people.

The government is said to be blamed to some extent. They have increased the taxes there by pushing prices astronomically. They are also blamed for converting money by tons. They have increased the prices and the common man is paying for his needs through the nose. The rich people are

becoming richer and the poor people are becoming poorer. These gaps seem to be increasing by every year.

Problem of rising prices is a burning issue today. People are suffering many problems, by increasing prices. Poor people cannot afford food and are starving. The Prime Minister is not solving the problems but increasing it. He has introduced a new form of government namely GST. By

this poor people cannot buy any amount of food and are starving with hunger.

The causes by increasing prices are: Agriculture, Inflation, Population Growth, shortage of economical goods etc. We can prevent this by doing rally with information "Down the prices". People should cooperate with the government.

If effective steps are taken then the problem of rising prices surely will come down. Let the government take initiative to down the prices. Deficit on budget and floating of paper money should be stopped and such arrangement should be made by ensuring the proper supply of things so the tendency of hoarding and profit ring shall stop. The problem of rising prices may stop.

THE SUDDEN START OF MONSOON SEASON

The nature was fresh
The sun was bright
The wind was freezing
The children were playing
suddenly the clouds sudded
The day was turned dark
There was heavy thunder and lightning
The heavy rain started
The people told that the
monsoon had begun
The farmers felt happy
and ran towards their farms
The children started making paper boats
and floated in the water
Every one was happy of
the first monsoon rain
The rain is the life giver
The rain is the trust of farmers
The rain is my favourite water source
so, be happy during monsoon season

-Rishal M. Mathias, VIII B

A Loving Farewell to
Mrs Emelia Sanctos

Dear teacher...
Like a candle
That burns itself to spread light
You save us everything
By working hard day and night
Just like how flowers give away
Fragrance that they can't smell
You have made our lives blossom
In way that words can't tell

STUDENT'S ROLE IN SWACHH BHARAT

-Harikrishna, X B

India is a country of villages. But these villages are not clean and cleanliness is not maintained. We all believe that 'Cleanliness is next to Godliness' but nobody is bothered about it. It is our duty to keep our villages and towns clean which will lead to the development of our modern India.

'Health is wealth' is a proverb that came from early centuries. Nobody likes the place which is not clean. Now a day's people are throwing things here and there. If for example when they travel in the private vehicles they throw the waste into the river. Eg: Ganga river. This river is fully polluted in the present day. Now there is a need of alternative to keep our India clean.

Swach Bharat was the dream of Mahatma Gandhiji and is continued by our honourable Prime Minister Mr Narendra Modi. Now itself is the time to keep our village clean. 'Today's students are tomorrows citizens', So students are able to keep our country clean. Now a days in some villages toilets are not established. This is one of the biggest problem risen recently in India.

Today there is a need of inspiring the minds of students of Swachata Abhiyan started by Mahatma Gandhiji. The concentration of students should increase in studies and the Government should plan to eradicate the problem of plastics which is harmful to our health. Government is saying that plastics should be banned, we all agree but what can be given as a substitution instead of plastic?

Recently our Udupi Disitrict has made a plan to reduce the problem of plastic. They have served 2 buckets to every houses, one is to put biodegradable materials another is to put non

biodegradable materials. They come to our house twice a day collect the waste and go. Some they give to industries to recycle some biodegradable matters they give to cattle, usedas manure etc. But these all things are done by Government. But what are the things that can be done by students in Swacch Bharath?

There is not so much of difficulty to keep our villages clean. Every students should cultivate the habit of cleanliness. They must check that whether their surroundings, schools, houses, especially toilets are clean or not. If not they must make an arrangement to make it clean. Now a days students have become lazy because of their parents. Parents are meeting all the things necessary for their child such as mobile phone, Tablets etc. Government should put more information about cleanliness in the school textbooks. At that time teachers must explain to students, then students will cultivate cleanliness in their life. In this way if the cleanliness increases in the society, people do not suffer from any diseases. Students will become suitable citizen of the country and our country will be a developed one.

MY HOBBY

Each and every person should have one or the other hobby. My hobby is reading various kind of books.

I love reading books a lot. Reading enriches our knowledge I like reading novels, real life incidents, stories and fictional stories. I nearly have more than three hundred books and I have read mostly all the books in that. I have the Manorama year books of past 4 years and they are full of knowledge. Due to that book I came to know about many natural disaster and their causes, about our space, sports, politics, general questions etc. Then my most favourite book is my novel. Its a rivalry novel of 2 boys born on the same day from different parts of the earth. And how they overcome the difficulties of life. And how they become one of the richest people. And how they become the cause of death of each other. The name of that novel is "Kane and Abel" written by Jefrey Archer. I had bought it through flipkart. I thought novels would be very boring. But this novel was very interesting. One day I started reading it at 10 pm and I read it till 2 am. I wanted to read it whole day and night. I finished reading my novel by three weeks. I have general knowledge books and they enrich my knowledge. Even when I'm busy and if I have a book, I will prefer to read the book.

Reading is a good hobby indeed. We must adopt the habit of reading. If we read any book now we will remember it forever in our life. If we make the habit of reading from childhood it will continue through out life.

- **Ginnel C. Quadros,** 8 A

CHRISTMAS

- Ginnel C. Quadros

Christmas is the great joyous occasion of the annual celebration of the birth of Jesus Christ, the founder of Christianity. It is on 25th of December that Our Lord Jesus was born at Bethlehem. The birth of Jesus is considered one of the most significant event in world history.

Every year, this sacred day is observed with religious zeal, in great merriment and with sincere prayers by Christians all over the world. Billions of people around the world celebrate this day. Throughout the year, they wait for the advent of Christmas and the preparations for the ceremony start a fortnight before the actual day.

On this day they go to Church and offer special prayers. It is a day of merrymaking and joy. Christians decorate their houses, offices, street, churches beautifully with colourful lights.

On this occasion, everybody wishes "Merry Christmas" to each other. Special Christmas carols are sung in churches. The two special items of Christmas are the Christmas tree and Christmas cake. Gift distribution is one of the most common activity during this festival. Children eagerly wait for Santa Claus. He is a symbol of a protector and friend of the children. All people enjoy the occasion.

On this unique occasion of Christmas, even non-Christians give due reverence to the Son of God, who suffered the terribly painful death on the cross to deliver humanity and kindness from evil. An atmosphere of universal goodwill prevails on earth. All men and women treat each other as brothers and sisters. People forget jealously, hatred and selfishness. The spread of love and peace among mankind is the supreme message of Christmas.

THE BOOKS

-Vivina Nazareth, VIII A

Books play an important role in our life. It is said that books are our best companions. Books are our friends in a real sense they demand nothing from us. They give us plenty of joy. We also learn a lot of them. They take us into the different world of imagination.

A book consists of long written work. It may be published either in physical form or in electronic form.

Good books improve our standard of living. They tone up our intellectual taste they make our outlook broad. They console us when we are depressed. Reading good books has many advantages thus a good book is our true friend. A man must avoid reading bad books. They make our life miserable. We may have to suffer because of bad books. They develop us in bad habits. They mislead and misguide. Bad books ruin our intellectual abilities. They spoil our interest in reading good and serious books. Bad book are waste of our time and energy. Bad books spoil our character.

A well read man is loved by all. He is a store house of information. He knows something of everything. A well read man can be a good talker. He can entertain us with good talks. He shows forth at a social function. So, we do not feel dullness or boredom in the company of such persons. This is another advantage of reading books. Books are of different kinds. Some books deal with topics of general nature. Everybody likes to read those books. A general reader likes to read books of general nature. They give us knowledge and pleasure.

We should be careful while we select books. A man of wide reading is a man of culture. Books magazines do not bore us. They make our life happy, but bad books spoil our taste. Only a sincere reader of good books knows what divine pleasure he gets from reading books.

-Rishal Mathias, VIII B

DIGITALIZATION

Digitalization is the process of converting information into a digital format, in which the information is organized into bits. As a result the digitalized data is in the form of binary numbers, which facilitates computer process.

Digitalization is often used when diverse forms of information such as text, sound, image or voice are converted into a single binary code. The core of the process is the compromise between the capturing device and the player device so that the rendered result represents the original source with the most possible fidelity and the advantage of digitalization is the speed in which this form of information can be transmitted with no degradation compared with analogue information.

Digitalization is also used [forms of] to describe the process of populating databases with files. While this usage is technically inaccurate, it originates with the previously proper use of the term and describes that part of the process.

Digitalization is also used in the field of apparel, where an image can be recreated with the help of embroidery digitalization software tools. Digitalization of personal multimedia such as slides and photographs is a popular method of preserving and sharing older repositories. Slides and photographs can be scanned using an image scanner.

Digital preservation is more complicated because technology changes so quickly that a format that was used to save something years ago may become obsolete. Computers are longer made with them, and obtaining the hardware to convert a file from an obsolete format to a newer one can be expensive. As a result the upgrading process must take place every 2 to 5 years or as newer technology becomes affordable but before older technology becomes unobtainable.

Digitalization can also be quite expensive. Institutions want the best image quality in digital copies, so that when they are converted from one format to another over time only a high quality copy is maintained. Smaller institutions may not be able to afford such equipments. Manpower at many facilities, also limits how much of material can be digitalized.

SAVE WATER

-Alisha Lorraine Lobo, IV B

Water is called the dixier of life. It is a life sustaining resource. ¾ of the earth is covered by water. But still there is lack of drinking water. It is most essential for all the human beings, animals and nature. We need it everyday. Each human body consists of 75% of water, which makes it clear that how water is important. We can live for days without food but we cannot imagine life without water.

We should save water according to our need and requirement. It should be economically used. Do not waste water while washing the clothes or bathing, the taps should be closed properly, after washing vessels give the same water to the plants, do not keep the tap open while brushing teeth or washing hands. Wash your vehicles on the lawn, so no need of sprinkling water to the plants. Use water harvesting method or water conserving.

Rain is the biggest source of water. So use rain harvesting method. We should think about our future generation too. As being educated citizens it is our duty to tell about the scarcity of water and how we can conserve it. Everywhere we should build the awarness not to waste water. Everyone should make a task related to save water. So we should be very careful while using water.

"Water water everywhere
waste no water anywhere"

THE SUN AND THE WIND

- **Reenal Fernandes,** VI B

One day a heated argument took place between the wind and the sun. They argued with each other over who was stronger. The wind proudly said, "I am very strong, my powerful blows can do many things". So the the sun said, "Do not underestimate my power. I too can do several things and that too without being very harsh".

While the two argued over their strengths and power, they noticed a man walking down a street. The man wore a black coat. Spotting this man on the road, both the sun and the wind sported a challenge to help them decide who was the strongest among them.

The wind said, 'let's see who can succeed in removing the coat from the man's back in lesser time. Whoever succeeds in this task would be declared as the strong".'

"Sure, if this can prove our might and solve the problem, I am ready for the challenge", said the sun as he accepted the challenge.

First it was the wind's turn. He started blowing fast and strong. The gusts of air were so strong that the man on the road found it difficult even to walk against them. He clutched his coat firmly. The wind blew harder and stronger. It continued to blow without stopping. But the stronger the wind blew the tighter the man held to his coat. Finally the wind was exhausted and so the gusts stopped.

"Oh, I can't blow any longer", said the wind and decided to give up.

Now it was the sun's turn. The sun gently sent its beams upon the man. It slowly and quietly shone upon the man's head and back. This slowly warmed up the man, soon he removed his coat and headed towards the shade of the nearest tree by the roadside.

Moral : Gentle persuasion is stronger than force.

DIGITALIZATION

Digitalization is a term which is older than the internet initially it was used to describe the change of analogue to digital information. Systems in which such type of transformation are embedded computers radios, television sets, digital cameras etc. For example a digital camera converts a analogue picture into several million digital pixels, each representing tiny but a distinct portion of a picture.

The modern meaning of Digitalization is defined by the use of (software) applications. These change the way we interact with an individual or organization in the society. Today, its main purpose is to build network between individual, companies and public entities to share information or provide services on mostly positive or desired impacts in our analogue lives. Digitalization is needed for companies to attract customers. It is a heart of the company. It is a core of all processes. It is perceived to companies which are losing customers in the market.

Digitalization is everywhere. The digital technologies are found in hospitals, schools, railway stations, airports, large buildings etc. It is also called developer. It is mostly found in every country. Our country is developing now and we people should improve it so that we and our future generation can enjoy it. But there is a problem. There is a saying that "Today's youth a gadget freak". This sentence highlights the over use of digital technologies. It has become a new trend and disease some countries don't have a paper to send letters. So, digitalization is neutral. It is a developer and a disease producer. So, the proper use of digital items is in our hand. This is the reason why we have to spread awareness about digitalization.

-Vivian Castelino, VIII B

MOTHER

Mother is the essential word in our life, she is the one who created a new life, just like us. A mother teaches to talk, teaches to walk on the right path, saved us from every danger, Oh! how great mothers are. Everybody says "All mothers are best, mine is unique, all are loving but mine is caring" but I say "She is more than the words that can be described".

M = Magnificient
T = Talented
E = Effiecient
O = Outstanding
H = Hardworking
R = Remarkable

- Rachel Andrade, VI B

HINDU FESTIVALS

India is a land of many religion languages, culture etc. Hinduism is the main and oldest religion. There are lots of religious, cultural and traditional festivals celebrated by the Hindus. Each hindu religion has its own significance and rituals. The rituals may vary like offerings to gods and goddesses, fasting, bathing in the holy river, charity, pooja, homa, aarti etc.

They celebrate the festival by coming together as a united community irrespective of age, gender, rich or poor. The dates of the festival depends on the Hindu lunar calendar which depends on the sun and moon. Some festivals are based on mythology, historic, seasonal changes, harvesting etc. Diwali is the main festivals. It is a display of lights and fireworks. The goddess of wealth is worshiped on Dhan Teras. Dushera is the festival of the victory of good over evil. Onam is a harvest festival of Kerala and Pongal of Tamil Nadu. Holi is the festival of colours.

In whaterver way the festival may be celebrated, but it brings a note of unity, joy, happiness and brotherhood. Let these festival bring harmony and togetherness among all the people.

-Sanvith, V B

LIFE

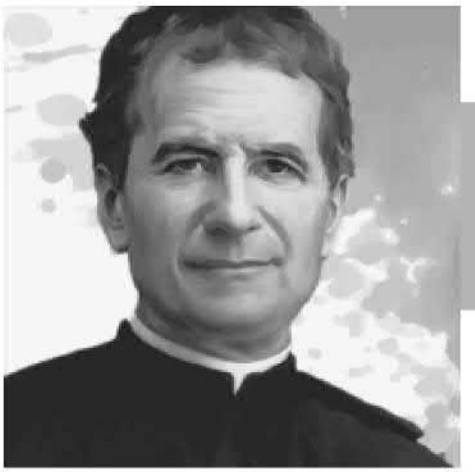

Life is too short, stick to these rules
Laugh a lot
Love truly
Forgive quickly
Have no regrets
Don't complain
Accept Life & move on.

- Shareen G. Corda

MOTHER

Among the Flowers, she is Beautiful Rose
Among the Rivers, she is Sacred Ganga
Among the metals, she is 25 carat Gold
Among the Birds, she is Phoenix
Among all she is unique
She is my friend, my companion and my breath
She is my Mother

- Risha Nazareth, 8th B

SAINT JOHN BOSCO (St Don Bosco)

- **Shareen G. Corda,** VI B

In Italy, a little boy was born to a poor couple. He was baptized as Giovanni Bosco in Italian or John Bosco in English. John's father died when he was two years old. So, Little John had to do some small odd jobs to earn some money for his family.

After finishing school, young John Bosco went to college and then went to the seminary, but event here he worked as a Carpenter, tailor, baker and shoemaker to pay his fees. After he became a priest he began teaching young boys and girls not just the Catechism but how to live good and holy lives.

In those days, Don Bosco saw many children abandoned in prisons and living in very bad conditions. So, he decided to start a shelter for these helpless boys and girls.

Don Bosco became ill and died on January 31, 1888. When a young boy named Aloysius cut his finger at the oratory, he rushed to Don Bosco's body and laid the back of his bleeding hand on the body. The wound healed immediately. He is the patron of youth.

TEACHER'S DAY CELEBRATION

Teacher's day is a national festival, which is celebrated all over India Teacher's day is celebrated on September 5th every year because it is the birth day of Dr Sarvapalli Radhakrishnan, who was the former President of India. Dr Sarvapalli Radhakrishnan was born on September 5th, 1888. He was a philosophere educationalist, humanist and a religious thinker. He wrote many books on religion and philosophy.

- Reenal Fernandes, VI B

MY PET DOG - BEEDU

Dogs are quadruped domestic animals. They are tamed by many people. Dogs can bring happiness to even the saddest person. They bring out the best in someone and they're always there for you I have a dachshund breed of pup whose name in Beedu.

Beedu was born on 7th of December 2016. It was a very cute puppy. We brought it to our home when it was two months old. First day when we brought it to our house it was the most adorable thing I had ever seen. In my house everyone loved it a lot. My brother was pulling its cheeks. And I was saying to it "Beedu please give me your ears. I want your ears". Its ears were very long as it was a dachshund breed of dog. Whenever we were talking with it, it would smile and make cute faces. Its diet was very different from other dogs. It didn't have proper teeth. So we had to give it milk, biscuits, toast and make small pieces of it. It couldn't eat Pedigree . In summer holidays my father would say to Beedu to wake us up and it would jump on my bed and would lick my face and bite my hand, but not with its teeth. My brother would get very angry and would put it inside the bedsheet, and Beedu would sleep. Whenever we will be sad it will come to us, as it is an indoor dog and would entertain us. In the month of October it was unwell I sat with it the whole night and was taking care of it. I love my Beedu a lot. Its the favourite of my father. We all like it alot. Its like a member of our family.

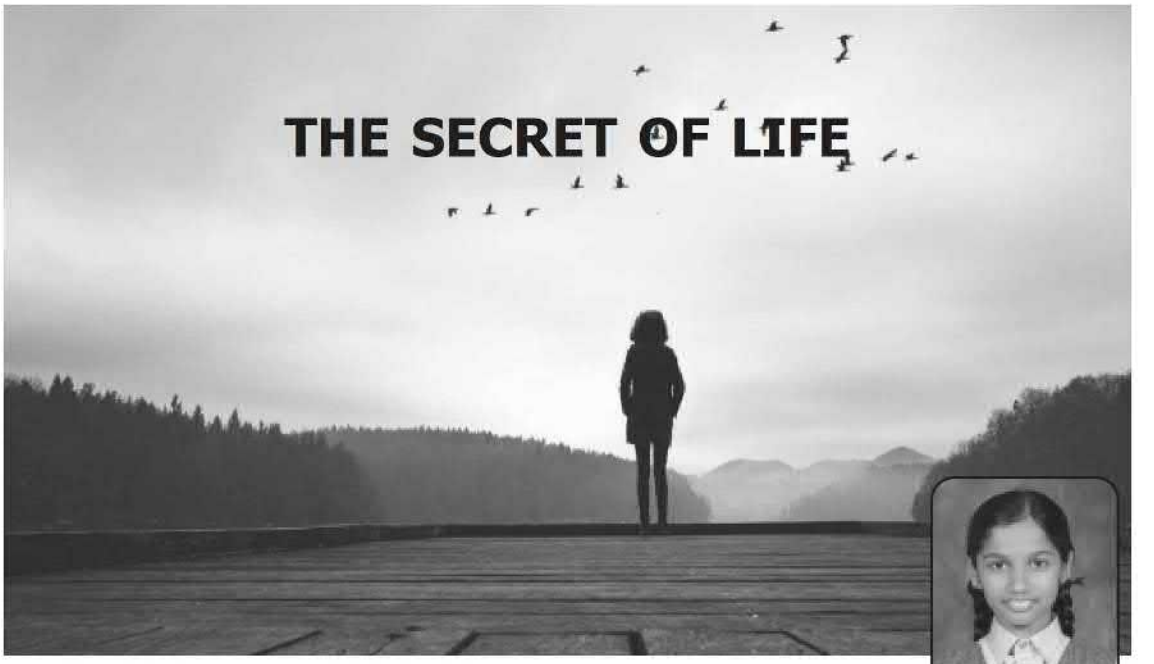

Dogs are faithful. They like their masters. But my dog is the most faithful dog. It makes me proud much more than others. Beedu is the best of the lot.

- **Ginnel C. Quadros,** VIII A

LIFE

Life is a challenge	-	Meet it
Life is a adventure	-	Wear it
Life is a game	-	Play it
Life is an opportunity	-	Take it
Life is a beauty	-	Praise it
Life is a spirit	-	Realise it
Life is a sorrow	-	Overcome it
Life is a gift	-	Accept it
Life is a song	-	Sing it
Life is a duty	-	Perform it
Life is a struggle	-	Fight it
Life is a puzzle	-	Solve it
Life is a goal	-	Achieve it

- Risha Nazareth, 8th B

Denali D'Souza
VI A

Human beings are created by God. Life is a greater gift given to each of us by our creator. God designs everyone's life. Everybody is gifted with many talents. Therefore all of us need to work hard, to achieve our goal. Without making an effort no one can realise anything in life. Then his/her ambition will simply remain an idle dream.

Once an eight year old boy approached an old man in front of a wishing well, looked up into his eyes and asked "I understand you're a very wise man. I'd like to know the secret of life".

The old man looked down at the youngster and replied. "I've thought a lot in my lifetime, and the secret can be summed up in four words.

The first is THINK. Think about the values with which to live your life by.

The second is BELIEVE. Believe in yourself based on thinking you've done, about the values you're going to live your life by The third is DREAM. Dream about the things that can be, based on your belief in yourself & the values you are going to live by.

The last is DARE. Dare to make your dreams become a reality, based on your belief in yourself and your values. And with that, Walter E. Disney said to the little boy "THINK, BELIEVE, DREAM AND DARE".

Let all of us try to cultivate these four tips. Because they help us to reach our goals. We are called to grow. Grow to the fullest. The secret of our lives growth depends on the efforts we make. Let's work hard to gain success.

BOOKS OUR LIFE

Andrea DSouza, VIII A

In our life, books play a very important role. Our life is very busy, but everyone knows the importance of books. We can learn many things through books. By reading we can also enjoy, our mood becomes fresh. Through books, we can also develop a good personality.

In our world, there are many people who don't get to read books. But we should feel proud that we have the money to buy books. Many people find their happiness only by reading books. If we are tensed or disturbed we can read books and we find the reason to smile. There are several types of books. Mostly all people love reading stories and novels.

Even a poet finds the way of writing poems by reading book. Instead of wasting time, we can sit in a silent place and read books. In today's generation, books are life. Without knowledge a person does not have a built personality.

And the main thing is that everyone does, tearing pages. We must never tear the pages from books. It is said that if we tear pages then knowledge does not enter in our mind. Let us all take an oath and promise that we will never tear pages.

A GOOD STUDENT

A = Always liked by the teachers
G = Greets everyone with smile
O = Obedient to school
O = On time to schol
D = Dress neat and clean
S = Studies with Interest
T = Treats everyone with respect
U = Understands everything
D = Does daily home work
E = Eager to know things
N = Never misbehaves
T = Talks less in class

- Risha Nazareth, 8th B

VALUE OF TIME

"Time is more than money as money spent can be earned again however once time spent can never be earned"

There is a common saying that "Time and tide waits for none". It is as true as existence of life on the earth. Time runs continuously without stopping. It never waits for anyone. So, we should never spend our precious and priceless time without purpose and meaning at any stage of our life. We should always understand the meaning of time and use it according in a positive way to fulfil some purpose. We should learn something from this continuously running time. If it runs regularly without stoppage, why we cannot?

Time can give lots of happiness, joy and prosperity to one however it may also drop everything of one. It runs continuously without any disturbance. We too always try to go with time side by side to get real success in life. There is a true saying that "If we ruin time, it ruins us and our life". We should understand the value of time and go ahead with it because time never stays for anyone special.

We should understand the value of time and use it accordingly in a constructive manner so that we can get blessed with time and not destroyed.

- Vivina Nazareth, VIII A

MY LITTLE BROTHER

I have one little brother, his name is Alan Luke. I love him so much but sometimes, I feel my mum and dad loves him more, then I realise he is younger than me. I get very annoyed when he takes my things especially rubber, ruler and pencils when he forgets to bring his own from school. Even my mum takes from my bag.

Sometimes he is my friend. We play together laugh together. Sometimes we fight with each other. But most of the times I get the blames when he cries. Even I fight with him I still love him, he is my amazing brother.

- Liviya Mendonca, V A

Anjali, VII B

TRUST

Trust has more value than love. Trust is when your friend borrows notes for a test and you think they will return it back. Trust is when you fall backwards. Believing that your friend will catch you. I believe that trust is an even greater compliment than to be loved. Trust has many synonyms like confidence, believe and hope. These words are only some examples of what trust can mean.

Let me tell you a short story of a little girl and her father which shows you the true meaning of trust. A little girl and her father were crossing a bridge the father asked his daughter to hold his hand so that she doesn't fall into the river. The little girl said, 'No Dad, you hold my hand'. 'What's the difference?'. Asked the puzzled father. 'There's a big difference' replied his daughter. 'If I hold your hand and something happens to me, chances are that I may let your hand go. But if you hold my hand, I know for sure that no matter what happens, you will never let my hand go'.

Here in this story, we get to know that trust can not be learned or purchased but can only be earned.

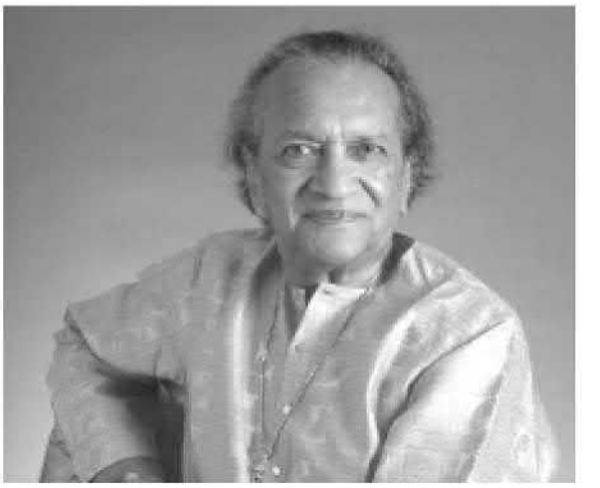

MY NEIGHBOURHOOD

I Live in a place where my house is surrounded by 8 houses. Each house is every close to each other, sometimes I can hear until late shouting and screaming by older people, sometimes children cry when everything is quiet dogs start barking or I can hear cats fighting. Sometimes I can see women gossiping with each other but one thing I love about our neighbourhood they are always there when someone needs help. I also play with my neighbours. I also help my neighbours, care for the old people in our neighbourhood and love them always.

-

Liviya Mendonca, V A

RAVISHANKAR

Shankar was born on 7th April 1920 in Varnasi. British India, to a Bengali family as the youngest of seven brothers. Rabindra Shankar Chowdhary his name often preceded by the title Pandit was a Bengali Indian musician composer of Hindustani classical music. His father, Shyam Shankar was a Middle Temple barristar and scholar from East Bengal (now Bangladesh). A respected statesman, lawyer and politician, he served many years as (chief minister) of Jhalawar, Rajastan and used the Sanskrit spelling of the family name and removed its last part. Guru Nahari Shri Mahesh Yogi Shankar shortened the Sanskrit version of his first name, Ravindra to Ravi for "sun". Shankar had six siblings only four of whom lived past infancy; Uday (who became a famous choreographer and dancer), Rajendra, Dependra and Bhupendra. Shankar attended the Bengalitola High School in Benares between 1927 and 1928. He died on 11 December 2012.

-Eshika Poojary, VI A

SAVE WATER-SAVE LIFE

We are all water creatures. It makes up: 60% of your body. 70% of your brain. 80% of your blood. While you can go almost a month without food... Your body can't survive one week without water. Water covers most of the planet but just 3% is freshwater. Less than 1% of all freshwater is readily accessible for human use. Only a quarter of all the clean water enter your home. A water crisis is looming. The emerging worldwide water shortage is serious. It's time to give water a second thought. Use less water save more water.

-

Eshika D. Poojary, VI A

THE SUDDEN START OF RAIN

One fine day the weather was bright and the sun was shining brightly. I got ready to go to school. I came to school. The weather seemed very happy. Till afternoon the weather was bright. In the evening when we students assembled for the thanking prayer. There was a sudden heavy shower and the wind was blowing in such a speed that the rain water entered our school building. Our school busses got struck in the ground due to heavy rain and the fog covered the glasses of the bus. The teachers left the walking students late because it was lightning, thundering and raining heavily. I got scared to go walking but still in the name of the Lord I went home. I was completely wet that my cousins said that no need of taking bath in the night. The rivers, lakes, streams were over flooded. My home yard was like a swimming pool. Then however the rain left us. The next day the weather was calm and cool. We loved cool and calm weather.

-Rishal Mathias, VIII B

INTERESTING FACTS YOU MUST KNOW

* 11% of people are left handed
* August has the highest percent of births.
* Unless food is mixed with Saliva you can't taste it.
* A bear has 42 teeths.
* The average person falls a sleep in 7 minutes.
* An ostrich's eyes is bigger than its brain.
* Most lipsticks contain fish scales.
* No two corn flakes look the same.
* Lemon contains more sugar than strawberries.
* 8% percent of people have an extra rib.
* 85% of plant life is found in the ocean.
* Rabbits like licorice.
* The Hawaii an alphabet has 12 letters.
* Topolino is the name of mickey mouse.

Hiba, VI A

MY AMBITION

Ambition means a strong desire to achieve something great. Everybody has an aim in life. Different people have different ambitions. Some want to be rich. Some wish to become leaders of the country to gain honour. Some desire to be great scientists. The most common ambition among everyone is to be an engineer and doctor. To achieve all that is possible, we must attempt the impossible". My ambition is to be a professional Badminton player.

"If you wish to reach the highest, begin at the lowest". I don't know why I have this ambition. By seeing Saina Nehwal I thought to be a professional Badminton player. I love to play Badminton a lot. I am playing Badminton since 8 years. I play with my father and he plays very nicely. I play Badminton very well. But I lose every time with my father. I usually change my ambition every time. But this ambition of mine didn't change for 3 years. And I shall surely be a Badminton Player.

I want to be a professional Badminton player and win gold medal in Olympics as well as gold medal in World Championship and make my country, India proud. My role model in Badminton is K Srikanth. I am sure that I will be a professional badminton player like him and make my country proud as he did.

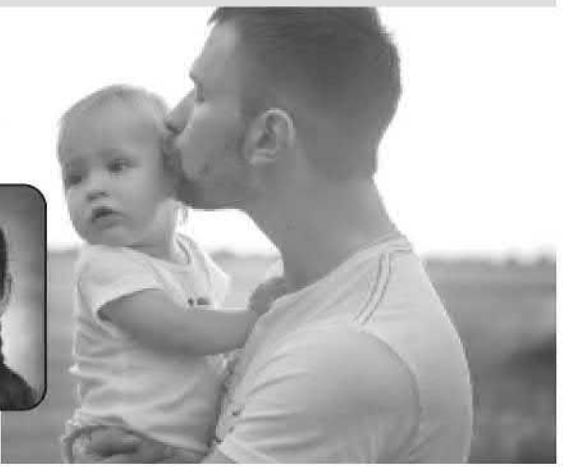

"The ignited mind of the youth the most powerful resource on the earth, above the earth and under the earth".

THE WASHERMAN AND HIS DONKEY

Rishaun D'Souza, I A

A Washerman had two good friends, a dog and a donkey. Whenever the washerman had clothes to wash, the donkey carried the bundles to the river and the dog watched his house at night.

One day the dog was very angry because he wasn't given anything to eat. That night, it so happened, that a thief broke into the house. The dog did not bark, although he heard the thief opening the door. The donkey, however, wanted to show his master that he was faithful and began to bray.

The washerman woke up with a start. He got out of bed, looked around the house but found no one. He beat the donkey for making such a noise at that part of the night. The dog laughed and went to sleep. We should try to be ourself and not to imitate others.

QUIZ QUESTIONS

1. Who wrote 'The Audocity of Hope'?
   Barak Obama
2. Who published the First Modern Atlas?
   Abraham Ortelius
3. What is the old name of Iran?
   Persia
4. Who invented the ball point pen?
   Lasla Biro (1938)
5. Earthquakes rarely occur in which country?
   Brazil
6. Who wrote 'A Christmas Carol'?
   Charles Dickens
7. Which continental region is called the Penisulla of Penisulas?
   Europe.
8. On which river is the Nigam Sagar Dam?
   Godavari

THE ANT AND THE CAT

Once upon a time the ant and a cat were so friendly. They were best friends. The ant had its own family. And the cat was living with her mother. The Ant was carrying the food always to his family. The cat was living in the house. One day while the ant went to the forest to bring the food. It got stuck into the spider's web. Both the friends were playing in the evening always. The cat came to the forest to play with the ant. The cat did not know where the ant had gone. The cat felt so sad.

As the time passed, it thought.....then it got one idea. While smelling it scratched the place and went near the ant. The ant was crying. Then with its nails, it broke the spider's web and the ant fell down. And they went back and started to play again.

Moral : One should help each other

TREES

Trees are tall
And trees are short
Just like we human beings
They all are

Trees are thin
And trees are fat
Trees are for birds
And trees are for all

Trees provide shade
When we walk around
Then why is man jealous
That he cuts them down
One by one

- Wilona D'Almeida, VIII B

DON BOSCO SCHOOL

This is Don Bosco School
where teaching is always cool
though the day is sunny
playing is always funny!
so everything is easy!
To guide us there is a teacher
who tries best to make our future
here everyone is friend
joyful time is spend
so, in everyone's heart
Don Bosco School covers a part

- Afeefa Hafiya, V A

RIDDLES

- Vivina Nazareth, 8 A

1. I travel all over the world, but always stay in my corner.
   - A Stamp
2. What do you call a bear without an ear?
   - A "b"
3. What do you break before you use it?
   - An egg
4. Why is the letter A the most like a flower?
   - Because the B is after it.
5. Why did the girl throw butter out of the window?
   - She wanted to see a butterfly
6. What starts with P, ends with an E and has thousands of letters?
   - The post office
7. What word begins with E and ends with E but has only one letter?
   - Envelope
8. Six letters it contains. Take away the last letter... and only twelve remains. What is the word?
   - Dozens'
9. Yellow I look and massive I weigh. I come and brighten your day.
   - A school bus

THE THREE THINGS OF LIFE...

The three things of life once gone never comes back
- Time, words & opportunity

The three things of life must not be lost
- Peace, hope & honesty

The three things of life that are most valuable
- Love, Self confidence & Friends

The three things of life are never sure
- Dreams, Success & Fortune

The three things that makes a man
- Hardwork, Sincerity & Success

The three things of life that destroys a man
- Wine, Pride & Anger

-Haily Cabral, VIII B

RED FORT

This is about the great Red Fort which is located at Delhi and is also known as Lal Qila. Everybody says it looks awesome in red colour. You may also have visited this place. But does everyone know what is the history behind it. I will tell you all the history behind Red Fort.

Red Fort is located on the bank of the river. Yamuna Red FOrt is one of the great historical monuments of India. It is known as Red Fort because there is much use of red sand stones in the construction of the Red fort and its walls.

The attraction of Red Fort is the great and huge wall. The wall has two entrance one at the Lahore gate which is the main entrance and another at Delhi gate Lahore gate is 2 km long and looks awesome in red stones. So friends, I say that you must visit this place at least once in your life.

Glarin Mefilda Lobo, VII B

ODE TO MY TEACHER

She is as this as she can be,
She works as hard as a bee
She teaches us, her students dear;
Until all our big and little doubts are clear

She corrects us, she helps us,
She keeps us safe and sound
For all these things she does for us,
She deserves to be Crowned
I love the way she talks to us
The way she tells us that she cares
I know I can be open with her;
And she will always be there

She is an awesome teacher
She is a very good friend
A great mother, a wonderful guide
And a hurt she can mend

Glarin Mefilda Lobo, VII B

THE REVENGE OF AN ELEPHANT

In a certain village there lived an elephant named Ramu. Ramu used to go to the river to have a bath. On the way, he had to pass a tailor's shop. As the tailor was his friend, he used to put his trunk into the shop and the tailor would give Ramu something to eat.

This went on for a long time. Then one day the tailor was not feeling well. Earlier in the day, he had a quarrel with one of his customers. The tailor was, of course, upset and sat quietly in one corner of his shop.

Just at that time Ramu passed by and, as usual, put his trunk through the door. The tailor, instead of giving him something to eat, pricked Ramu's trunk with a needle. Ramu was angry and kept this in mind. He went to the river, filled his trunk with muddy water and on his way back sprayed the muddy water on all the new clothes.

The tailor suffered a great loss as he had to pay all his customers for the clothes that were spoilt. He learned a precious lesson that day not to take his anger out on others.

Rishaun D'Souza, I A

SCHOOL LIFE

School is daily for us
In the morning, we're sure to make a fuss
Even when the sun is still not up,
Here we are, wake up at 6am sharp

We feel that school is such a bore
We feel that school is such a chore
Parents say, "Well, what do you know?"

Late a minute and we have to run
Eyes half open, shoe laces undone
We reach school is such a chore
Parents say, "Well, what do you know?"

We have a chat and go with the flow
Then the bell rings, it's time to go
We may at times find school stressfull
To have some fun, we have to bend some rules

Talk back to teachers, I detention we serve
No doubt, it is sometimes, what we deserve

- Denali D'Souza

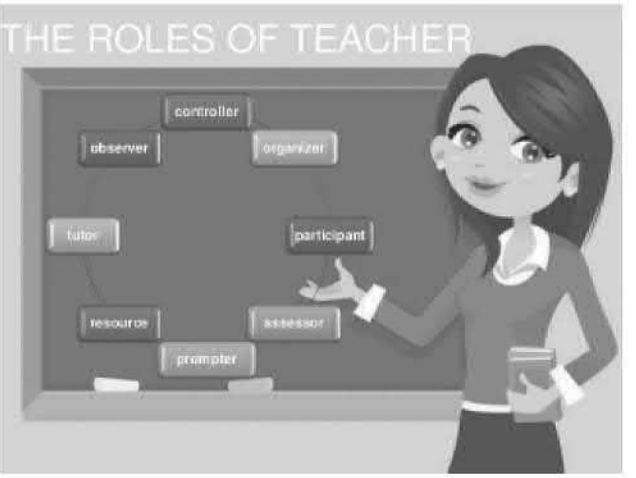

THE ROLE OF A TEACHER

"No system of education can rise higher than its teacher". It is true that the destiny of a nation lies in the hands of those who guide its youth. The teacher is a friend, philosopher and guide.

Teaching is not everybody's cup of tea. It is not a soft option. It requires hard labour, sweat and tears. Only those who have got geniune love will be able to do the job well. They must keep alive the flame in their own minds if they expect to kindle the minds of their students. "Only a burning lamp will burn another lamp". A teacher should use new methods and techniques and provide enough opportunities to the pupils for creative work.

The classroom is to be a happy place it cannot be that without a calm natured, sweet looking and charming good teacher. For a real teacher teaching is not a money earning device; to them it is a struggle, and life's mission. They should love to teach as a musician loves to play as a singer loves to sing. At the back of every great man, is a teacher who kindles enthusiasm, fosters confidence and guides him to the way of progress. The words of Alexander the great said "I owe my birth to my father, but life to my teacher".

A successful teacher must be aware of the aims, objectives contents concepts and various methods of teaching. They should be imbibed with high ideas and spiritual passion for values.

Janvi Shetty, VI

ವರುಣನಿಗೆ ಮೊರೆ

ದಹಿಸುತ್ತಿದೆ ಧರಣಿ ಬಿಸಿಲ ಬೇಗೆಗೆ
ಬಿರಿಯುತ್ತಿದೆ ಹೊಲಗದ್ದೆ ಉರಿಯ ತಾಪಕೆ
ಬತ್ತಿ ಹೋಯ್ತು ಬಾವಿ ಕೆರೆ ಕೊಳದ ನೀರು
ಕುಸಿದು ಹೋಯ್ತು ಅಂತರ್ಜಲ ಕೊರೆದು ಬೋರು
ಹನಿಹನಿ ನೀರಿಗಾಗಿ ಎಲ್ಲೆಲ್ಲೂ ಹಾಹಾಕಾರ
ಬೆಳೆಗಳನ್ನು ಬಿತ್ತಲಾಗದೆ
ತುಡಿಯುತ್ತಿದೆ ಜನರ ಮನ ವರುಣ ಕೃಪೆಗೆ
ದೇವ ನಿನ್ನ ಕೃಪೆಯೊಂದೇ ಇದಕ್ಕೆ ಪರಿಹಾರ

ಪಂಚಭೂತ ತ್ರಿಗುಣ ತತ್ವದಿಂದ ಈ ಭೂಮಿಯ ಸೃಷ್ಟಿಯು
ಮೇಘರಾಜ ಮಾರುತನ ಸಖ್ಯದಿಂದ ವೃಷ್ಟಿಯು
ಬೇಗ ಬಾರೊ ಕರುಣೆ ತೋರೊ ವರುಣರಾಯ
ಮಳೆಯ ಸುರಿಸಿ ಇಳೆಯ ತಣಿಸಿ ನಮ್ಮ ಕಾಯೊ ಮಹಾರಾಯ

ಜೀವನ ಪಯಣ

ಏರಿದೆ ಬಸ್ಸು
ಸಾಗಿದೆ ಮುಂದೆ
ಶುರುವಾಯಿತು ನನ್ನೀ ಪಯಣ!
ಚಾಲಕನ ಹೆಗಲ ಮೇಲೆ
ನನ್ನ ತಲೆಯನಿಟ್ಟು
ನಿಶ್ಚಿಂತೆಯಲಿ ಸಾಗಿತು ನನ್ನೀ ಕನಸಿನ ಪಯಣ
ಚಾಲಕನಲ್ಲಿ ನನಗಿದೆ
ವಿಶ್ವಾಸ! ತಲುಪಿಸುವನು
ನನ್ನನು ನನ್ನ ಪಯಣದ ಅಂತಿಮ ಗುರಿಯತ್ತ!
ಆದರೆ, ಜೀವನ ಪಯಣದ
ಚಾಲಕನಲ್ಲಿ ನನಗಿಲ್ಲ ವಿಶ್ವಾಸ,
ನಾಲ್ಕು ದಿನದ ನಾಟಕ, ನನಗ್ಯಾಕೆ ಅನಿಸಿತು ಚಿರಂತನ;
ನಾನಿಲ್ಲಿ ಅತಿಥಿ, ಇದೊಂದು ಪಯಣ
ಮುಗಿಯದಲ್ಲಾ, ಒಂದು ದಿನ
ನಾನಿಲ್ಲಿಂದ ಹೊರಡಲೇಬೇಕು
ಇಂದಲ್ಲದಿದ್ದರೂ...ಖಂಡಿತ ನಾಳೆ
ಬೆಳೆಸಬೇಕು ನಾನು, ಭರವಸೆ ನಿನ್ನಲ್ಲಿ
ಸಂಗಡಿಗ ನೀನು
ನನ್ನ ಜೀವನದ ಪಯಣದಲ್ಲಿ!

[illegible]

ಹರಿವ ನೀರಿನ ತರದಿ
ಜೀವನ ಸಾಗಲಿ ಮುಂದೆ... ಮುಂದ್ಮುಂದೆ
ಅಲ್ಲಿರಲಿ ಸಂತಸ, ಸಂವೇದನೆ, ಪ್ರೀತಿ, ಕರುಣೆ
ಸಾಗುವ ದಾರಿ, ನಿನ್ನಿಚ್ಛೆಯಂತಿರಲಿ
ಕಾಣುವ ಕನಸು ಹೊಂಗನಸಾಗಲಿ
ಅಲ್ಲಿ ಮಲ್ಲಿಗೆಯ ಕಂಪಿರಲಿ, ಕೋಗಿಲೆಯ ಇಂಪಿರಲಿ
ಆರೋಗ್ಯ ಜೊತೆಯಾಗಿರಲಿ, ಕಂಡ ಕನಸು
ಅನುಭವಿಸಲು ಸಿಗಲಿ, ಕಣ್ಮುಚ್ಚುವ ತನಕ!

ಜ್ಞಾನಕ್ಕಿಂತ ಅನುಭವ ದೊಡ್ಡದು

* ದೇವನಲ್ಲಿಡುವ ಅನುಶಕ್ತಿಯೇ ಭಕ್ತಿ. ತನ್ನ ತಾನರಿಯುವುದೇ ಜ್ಞಾನ. ವಿಷಯಗಳಲ್ಲಿಯ ವಿರಾಗವೇ ವೈರಾಗ್ಯ
* ಎಲ್ಲ ಜೀವಾತ್ಮರು ದೇವರ ಮಕ್ಕಳು. ನಿನ್ನಂತೆ ಅವರನ್ನು ಪ್ರೀತಿಸು. ನಿರ್ಗತಿಕರ ಸೇವೆಯೇ ದೇವರ ಸೇವೆ. ತನು–ಮನ–ಧನದಿಂದ ಅವರ ಸೇವೆ ಮಾಡು. ಅದೇ ದೇವರ ಪೂಜೆ.
* ದುಡ್ಡಿದ್ದವರು ಅಧಿಕಾರಿಗಳು ದೊಡ್ಡವರಲ್ಲ, ಸದ್ಗುಣ ಸದಾಚಾರ ಸದ ಸದ್ವಿವೇಕ ಸಮ್ಯಕ್ ಜ್ಞಾನ ಸವಿನಯ ಸಹಕಾರ ಮನೋಭಾವನೆಯುಳ್ಳವರೇ ದೊಡ್ಡವರು.
* ಬಿದ್ದವರನ್ನು ಎತ್ತುವುದೇ ಧರ್ಮ, ಮಾನವೀಯ ಮೌಲ್ಯಗಳೇ ಧರ್ಮದ ದಾರಿದೀಪಗಳು.
* ಧರ್ಮದ ಆಚರಣೆ ಇಲ್ಲದೆ ಯಾವನು ಜೀವನವನ್ನು ನಡೆಸುವನೋ ಅಂಥವನು ಕಮ್ಮಾರನ ಶಿದಿಯಂತೆ ಉಸಿರಾಡಿಸುತ್ತಿದ್ದರೂ ಬದುಕಿರುವವನಲ್ಲ.
* ಆಯುಷ್ಯವಿರುವುದರೊಳಗೆ ಸತ್ಸಂಗ ಮಾಡಿ ಸಂಸಾರ ವ್ಯಾಮೋಹವನ್ನು ಕಳೆದುಕೊಂಡು ಸಕಲ ಜೀವಾತ್ಮರಿಗೆ ಲೇಸನ್ನೇ ಬಯಸಿ ಸದ್ಗುರುವಿನ ಮುಖದಿಂದ ತನ್ನ ನಿಜ ಸ್ಥಿತಿಯನ್ನರಿತು ಭಕ್ತಿ ಜ್ಞಾನ ವೈರಾಗ್ಯ ಮಾರ್ಗದಲ್ಲಿ ನಡೆದು ಶ್ರೀ ಪ್ರಭುಪರಮಾತ್ಮನನೊಲಿಸಿ ಅತ್ಯಂತ ದುಃಖ ನಿವೃತ್ತಿ ಪರಮಾನಂದವನ್ನು ಪ್ರಾಪ್ತಿ ಮಾಡಿಕೊಳ್ಳುವುದೇ ಮನುಷ್ಯ ಜನ್ಮದ ಸಾರ್ಥಕತೆ.
* ಜೀವನದ ವಿಪರೀತ ದುಃಖಕ್ಕೆ ಆಸಕ್ತಿ ವ್ಯಾಮೋಹ ಕಾರಣ. ಕಾಮನೆಗಳು ಮಾನವನನ್ನು ದಾನವನನ್ನಾಗಿ ಮಾಡುವುವು.
* ವಿಷಯದಲ್ಲಿ ವಿರತಿ ಇದ್ದವನೇ ಸನ್ಯಾಸಿ, ಜಟಾ ಬಿಟ್ಟವನು ಸನ್ಯಾಸಿಯಲ್ಲ. ಸಂಸಾರ ಜಂಜಾಟ ಬಿಟ್ಟವನೇ ಸನ್ಯಾಸಿ. ಹೊರಗೆ ಸನ್ಯಾಸಿಯಾಗಿ ಒಳಗೆ ಸನ್ಯಾಸಿಯಾಗದಿದ್ದರೆ ಅವನು ವೇಷಧಾರಿ ಸನ್ಯಾಸಿ.
* ದೇಹವಿರುವವರೆಗೆ ಕರ್ಮವನ್ನು ಮಾಡಲೇಬೇಕು. ಆಸಕ್ತಿಯನ್ನು ಬಿಟ್ಟು ಕರ್ಮವನ್ನು ಮಾಡು. ಕರ್ಮದಿಂದ ಬರುವ ಫಲಾಪೇಕ್ಷೆಯನ್ನು ಬಿಡುವುದೇ ತ್ಯಾಗ.
* ಮನಸ್ಸಿನಲ್ಲಿಯ ಕಾಮನೆಗಳೇ ನಿಜವಾದ ವೈರಿಗಳು. ಕಾಮ ಇದ್ದಲ್ಲಿ ರಾಮ ಇರಲಾರ. ರಾಮ ಇದ್ದಲ್ಲಿ ಕಾಮ ಇರಲಾರ.

आत्म सम्मान

- **Mrs Reshma D'Souza,** Teacher

जीवन में हम सफलता (Success) पाने के लिए बहुत कुछ करते हैं । दूसरों को प्रभावित करते हैं और दूसरों से उम्मीदे रख लेते हैं । दूसरों का सम्मान करना भी सीख लेते हैं । लेकिन खुद के बारे में नहीं सोचते हैं । यदि हमको जीवन में सफल होना हे तो खुद के बारे में कुछ अच्छा सोचना और अच्छा करना होगा । दूसरों की इज्जत करना तो अच्छी बात है, लेकिन खुद की इज्जत किये बिना हम सफलता की ओर एक कदम भी नहीं बढ सके । आत्म सम्मान को बढाने के लिए नीचे दिये गये तरीके अपना सक ते हैं ।

1. खुद से प्यार करना सीखें :

जो व्यक्ति स्वयं से प्यार करना सीख जाता हे, वह आत्म सम्मान करना सीखता है । आपको स्वयं के प्रति सकारात्मक भावना होनी चाहिए ।

2. खुद के बारे में अच्छा सोचें :

जीवन में सफलता प्राप्त करने के लिए हमको खुद अच्छा करने के साथ अच्छा सोचने की भी जरूरत है । जब हम खुद के बारे में अच्छा सोचेंगे तभी हमको विश्वास होगा कि हम कुछ अच्छा कर सकते हैं ।

3. स्वयं को अच्छी देखभाल करें :

आत्म सम्मान के लिए स्वयं की देखभाल करना भी जरूरी है । समय पर खाने की आदत रखना, समय पर सोना और उठना, अच्छे कपडे पहनना, अपनी तंदुरस्ती का ध्यान रखना आदि सेल्फ केयर में ही आता है । जीवन में सफलता पाने के लिए यह सब करना जरूरी है ।

4. हमेशा सकारात्मक सोचना

खुद के बारे में और दूसरों के बारे में सकारात्मक सोचना भी आत्म सम्मान करना चाहते हैं, तो अभी से सकारात्मक सोचक शुरु कर दीजिए ।

इन चार आदतों को हम सीख गये तो जीवन में कैसी भी समस्या आये तो डरने की कोई जरूरत नहीं पडती है । और हमें सफलता जरूर मिलेगी।

- Rovin L. Castelino
7 B

पर्यावरण बचाओ धरती बचाओ

पर्यावरण दो शब्दों परि और आवरण के मेल से बना है । आर्थात यह हमारे चारों तरफ का वातावरण है । यह हमारे जीवन का एक अति महत्वपूर्ण भाग है । पर्यावरण को इंग्लिश में एनवायरमेंट कहा जाता है । हमारे आसपास मौजूद पानी, हवा, पेड़–पौधे, जीव–जंतु आदि मिलकर पर्यावरण का निर्माण करते हैं । इसमें जैविक और अजैविक दोनों घटक शामिल होते हैं । कहा गया है कि हमारा जीवन बेहतर होगा, यदि हमारे आसपास का पर्यावरण बेहतर होगा । यदि ऐसा नहीं होगा तो कहीं न कहीं यह हमारे जीवन शान्ती और जीवन दशा की प्रभावित करेगा । अर्थात हमारा जीवन सिर्फ हमारे ऊपर नहीं । बल्कि हम जिस वातावरण में रह रहे हैं । उसपर भी निर्भर करता है । इसलिए बेहतर जिन्दगी जीने के लिए साफ़ और सुन्दर पर्यावरण का होना बहुत जरूरी हो जाता है ।

बचाव के उपाय :

जहाँ तक हो सके, इधन को बचाने का प्रयास करें ।

ईंधन बचाना इंधन पैदा करने के समान है ।

कम दूरी की यात्रा साइकिल से करें ।

रेड लाइट यानी लाल बती पर इंजन बंद कर देना चाहिए । इंधन का एक –एक बूंद कीमती है । पारंपरिक बल्ब की जगह एल इ डी का प्रयोग करना ।

इस तरह के किसी भी कार्यक्रम की सफलता इस बात पर निर्भर करता है कि इसके लिए जन भागीदारी का क्या स्तर है ।

वायु प्रदूषण कई गंभीर परिणाम लेकर आता है, इसलिए हम सबको मिलकर पृथ्वी को प्रदूषण मुक्त बनाये तभी सबका कल्याण संभव है ।
